Provided, however, That (1) the discount of bills of exchange drawn in good faith against actually existing values, (2) the discount of commercial or business paper actually owned by the person, company, corporation, or firm, negotiating the same, and (3) the purchase or discount of any note or notes secured by not less than a like face amount of bonds of the United States issued since April 24, 1917, or certificates of indebtedness of the United States, shall not be considered as money borrowed within the meaning of this section, but the total liabilities to any association, of any person or of any company, corporation, or firm, upon any note or notes purchased or discounted by such association and secured by such bonds or certificates of indebtedness, shall not exceed (except to the extent permitted by rules and regulations prescribed by the Comptroller of the Currency, with the approval of the Secretary of the Treasury) 10 per centum of such capital stock and surplus fund of such association."

Any check so certified by a duly authorized officer, director, agent, or employee shall be a good and valid obligation against such Federal reserve bank or member bank; but the act of any officer, director, agent, or employee of any such Federal reserve bank or member bank in violation of this section shall, in the discretion of the Federal Reserve Board, subject such Federal reserve bank to the penalties imposed by section eleven, subsection (h), of the Federal reserve Act, and shall subject such member bank if a national bank to the liabilities and proceedings on the part of the Comptroller of the Currency provided for in section fifty-two hundred and thirty-four, Revised Statutes, and shall, in the discretion of the Federal Reserve Board, subject any other member bank to the penalties imposed by section nine of said Federal reserve Act for the violation of any of the provisions of said Act. Said amendatory section contained the following enacting clause: "That section fifty-two hundred and eight of the Revised Statutes as amended by the Act of July twelfth, eighteen hundred and eighty-two, and section fifty-two hundred and nine of the Revised Statutes as amended by the Acts of April sixth, eighteen hundred and sixty-nine, and July eighth, eighteen hundred and seventy, be, and the same are hereby amended and reenacted to read as follows:" The reference in said enacting clause to the previous amendment of said R. § 9774. **Reports to Comptroller of the Currency**—Every association shall make to the Comptroller of the Currency not less than three reports during each year, according to the form which may be prescribed by him, verified by the oath or affirmation of the president or cashier of such association, and attested by the signature of at least three of the directors. Each such report shall exhibit, in detail and under appropriate heads, the resources and liabilities of the association at the close of business on any past day by him specified, and shall be transmitted to the comptroller within five days after the receipt of a request or requisition therefor from him, and in the same form in which it is made to the comptroller shall be published in a newspaper published in the place where such association is established, or if there is no newspaper in the place, then in the one published nearest thereto in the same county, at the expense of the association; and such proof of publication shall be furnished as may be required by the comptroller. The comptroller shall also

have power to call for special reports from any particular association whenever in his judgment the same are necessary in order to a full and complete knowledge of its condition. (R. S. § 5211, amended, Feb. 27, 1877, c. 69, § 1, 19 Stat. 252, and Dec. 28, 1922, c. 18, 42 Stat. 1067.)

This section was amended by Act Dec. 28, 1922, c. 18, cited above, by changing the number of reports required from five to three.

For this section prior to this amendment, see U. S. Comp. St. 1918, § 9774.

§ 9784. State taxation.—The legislature of each State may determine and direct, subject to the provisions of this section, the manner and place of taxing all the shares of national banking associations located within its limits. The several States may tax said shares, or include dividends derived therefrom in the taxable income of an owner or holder thereof, or tax the income of such associations, provided the following conditions are complied with:

1 (a) The imposition by said State of any one of the above three forms of taxation shall be in lieu of the others.

(b) In the case of a tax on said shares the tax imposed shall not be at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of such State coming into competition with the business of national banks: Provided, That bonds, notes, or other evidences of indebtedness in the hands of individual citizens not employed or engaged in the banking or investment business and representing merely personal investments not made in competition with such business, shall not be deemed moneyed capital within the meaning of this section.

(c) In case of a tax on the net income of an association, the rate shall not be higher than the rate assessed upon other financial corporations nor higher than the highest of the rates assessed by the taxing State upon the net income of mercantile, manufacturing, and business corporations doing business within its limits.

(d) In case the dividends derived from the said shares are taxed, the tax shall not be a greater rate than is assessed upon the net income from other moneyed capital.

2. The shares or the net income as above provided of any national banking association owned by non-residents of any State, or the dividends on such shares owned by such non-residents, shall be taxed in the taxing district where the association is located and not elsewhere; and such associations shall make return of such income and pay the tax thereon as agent of such nonresident shareholders.

3. Nothing herein shall be construed to exempt the real property of associations from taxation in any State or in any subdivision thereof, to the same extent, according to its value, as other real property is taxed.

4. The provisions of section 5219 of the Revised Statutes of the United States as heretofore in force shall not prevent the legalizing, ratifying, or confirming by the States of any tax heretofore paid, levied, or assessed upon the shares of national banks, or the collecting thereof, to the extent that such tax would be valid under said section (R. S. § 5219, amended, March 4, 1923, c. 267, 42 Stat. 1409.)

(2) **Certificate of organization of bank.**—When the minimum amount of capital stock prescribed by this Act for the organization of any Federal reserve bank shall have been subscribed and allotted, the organization committee shall designate any five banks of those whose applications have been received, to execute a certificate of organization, and thereupon the banks so designated shall, under their seals, make an organization certificate which shall specifically state the name of such Federal reserve bank, the territorial extent of the district over which the operations of such Federal reserve bank are to be carried on, the city and State in which said bank is to be located, the amount of capital stock and the number of shares into which the same is divided, the name and place of doing business of each bank executing such certificate, and of all banks which have subscribed to the capital stock of such Federal reserve bank and the number of shares subscribed by each, and the fact that the certificate is made to enable those banks executing same, and all banks which have subscribed or may thereafter subscribe to the capital stock of such Federal reserve bank, to avail themselves of the advantages of this Act.

(3) **Same; acknowledgment and transmission to Comptroller; filing.**—The said organization certificate shall be acknowledged before a judge of some court of record or notary public; and shall be, together with the acknowledgment thereof, authenticated by the seal of such court, or notary, transmitted to the Comptroller of the Currency, who shall file, record and carefully preserve the same in his office.

(4) **Corporate capacity and powers.**—Upon the filing of such certificate with the Comptroller of the Currency as aforesaid, the said Federal reserve bank shall become a body corporate and as such, and in the name designated in such organization certificate, shall have power—

First. To adopt and use a corporate seal.

Second. To have succession for a period of twenty years from its organization unless it is sooner dissolved by an Act of Congress, or unless its franchise becomes forfeited by some violation of law.

Third. To make contracts.

Fourth. To sue and be sued, complain and defend, in any court of law or equity.

Fifth. To appoint by its board of directors, such officers and employees as are not otherwise provided for in this Act, to define their duties, require bonds of them and fix the penalty thereof, and to dismiss at pleasure such officers or employees.

Seventh. To exercise by its board of directors, or duly authorized officers or agents, all powers specifically granted by the provisions of this Act and such incidental powers as shall be necessary to carry on

Chapter Three A—Federal Reserve Banks

FEDERAL RESERVE BANKS

§ 9788. (1) Certificate of establishment of districts; application blanks for subscriptions to stock.—When the organization committee shall have established Federal reserve districts as provided in

the business of banking within the limitations prescribed by this Act

Eighth Upon deposit with the Treasurer of the United States of any bonds of the United States in the manner provided by existing law relating to national banks, to receive from the Comptroller of the Currency circulating notes in blank, registered and countersigned as provided by law, equal in amount to the par value of the bonds so deposited, such notes to be issued under the same conditions and provisions of law as relate to the issue of circulating notes of national banks secured by bonds of the United States bearing the circulating privilege, except that the issue of such notes shall not be limited to the capital stock of such Federal reserve bank

But no Federal reserve bank shall transact any business except such as is incidental and necessarily preliminary to its organization until it has been authorized by the Comptroller of the Currency to commence business under the provisions of this Act.

(5) Board of directors; chairman and "Federal reserve agent"; deputies; assistant agents.—Every Federal reserve bank shall be conducted under the supervision and control of a board of directors.

The board of directors shall perform the duties usually appertaining to the office of directors of banking associations and all such duties as are prescribed by law.

Said board shall administer the affairs of said bank fairly and impartially and without discrimination in favor of or against any member bank or banks and shall, subject to the provisions of law and the orders of the Federal Reserve Board, extend to each member bank such discounts, advancements and accommodations as may be safely and reasonably made with due regard for the claims and demands of other member banks.

Such board of directors shall be selected as hereinafter specified and shall consist of nine members, holding office for three years, and divided into three classes, designated as classes A, B, and C.

Class A shall consist of three members, who shall be chosen by and be representative of the stock-holding banks.

Class B shall consist of three members, who at the time of their election shall be actively engaged in their district in commerce, agriculture or some other industrial pursuit.

Class C shall consist of three members who shall be designated by the Federal Reserve Board. When the necessary subscriptions to the capital stock have been obtained for the organization of any Federal reserve bank, the Federal Reserve Board shall appoint the class C directors and shall designate one of such directors as chairman of the board to be selected. Pending the designation of such chairman, the organization committee shall exercise the powers and duties appertaining to the office of chairman in the organization of such Federal reserve bank.

No Senator or Representative in Congress shall be a member of the Federal Reserve Board or an officer or a director of a Federal reserve bank.

No director of class B shall be an officer, director, or employee of any bank.

No director of class C shall be an officer, director, employee, or stockholder of any bank.

Directors of Class A and Class B shall be chosen in the following manner:

The Federal Reserve Board shall classify the member banks of the district into three general groups or divisions, designating each group by number. Each group shall consist as nearly as may be of banks of similar capitalization. Each member bank shall be permitted to nominate to the chairman of the board of directors of the Federal reserve bank of the district one candidate for director of Class A and

one candidate for director of Class B. The candidates so nominated shall be listed by the chairman, indicating by whom nominated, and a copy of said list shall, within fifteen days after its completion, be furnished by the chairman to each member bank. Each member bank by a resolution of the board or by an amendment to its by-laws shall authorize its president, cashier, or some other officer to cash the vote of the member bank in the elections of Class A and Class B directors.

Within fifteen days after receipt of the list of candidates the duly authorized officer of a member bank shall certify to the chairman his first, second, and other choices for director of Class A and Class B, respectively, upon a preferential ballot upon a form furnished by the chairman of the board of directors of the Federal reserve bank of the district. Each such officer shall make a cross opposite the name of the first, second, and other choices for a director of Class A and for a director of Class B, but shall not vote more than one choice for any one candidate. No officer or director of a member bank shall be eligible to serve as a Class A director unless nominated and elected by banks which are members of the same group as the member bank of which he is an officer or director.

Any person who is an officer or director of more than one member bank shall not be eligible for nomination as a Class A director except by banks in the same group as the bank having the largest aggregate resources of any of those of which such person is an officer or director.

Any candidate having a majority of all votes cast in the column of first choice shall be declared elected. If no candidate have a majority of all the votes in the first column, then there shall be added together the votes cast by the electors for such candidates in the second column and the votes cast for the several candidates in the first column. If any candidate then have a majority of the electors voting, by adding together the first and second choices, he shall be declared elected. If no candidate have a majority of electors voting when the first and second choices shall have been added, then the votes cast in the third column for other choices shall be added together in like manner, and the candidate then having the highest number of votes shall be declared elected. An immediate report of election shall be declared.

Class C directors shall be appointed by the Federal Reserve Board. They shall have been for at least two years residents of the district for which they are appointed one of whom shall be designated by said board as chairman of the board of directors of the Federal reserve bank and as "Federal reserve agent." He shall be a person of tested banking experience and in addition to his duties as chairman of the board of directors of the Federal reserve bank he shall be required to maintain, under regulations to be established by the Federal Reserve Board, a local office of said board on the premises of the Federal reserve bank. He shall make regular reports to the Federal Reserve Board and shall act as its official representative for the performance of the functions conferred upon it by this Act. He shall receive an annual compensation to be fixed by the Federal Reserve Board and paid monthly by the Federal reserve bank to which he is designated. One of the directors of class C shall be appointed by the Federal Reserve Board as deputy chairman to exercise the powers of the chairman of the board when necessary. In case of the absence of the chairman and deputy chairman, the third class C director shall preside at meetings of the board.

Subject to the approval of the Federal Reserve Board, the Federal reserve agent shall appoint one or more assistants. Such assistants, who shall be

persons of tested banking experience, shall assist the Federal reserve agent in the performance of his duties and shall also have power to act in his name and stand during his absence or disability. The Federal Reserve Board shall require such bonds of the assistant Federal reserve agents as it may deem necessary for the protection of the United States. Assistants to the Federal reserve agent shall receive an annual compensation, to be fixed and paid in the same manner as that of the Federal reserve agent.

Directors of Federal reserve banks shall receive, in addition to any compensation otherwise provided, a reasonable allowance for necessary expenses in attending meetings of their respective boards, which amount shall be paid by the respective Federal reserve banks. Any compensation that may be provided by boards of directors of Federal reserve banks for directors, officers or employees shall be subject to the approval of the Federal Reserve Board.

The Reserve Bank Organization Committee may, in organizing Federal reserve banks, call such meetings of bank directors in the several districts as may be necessary to carry out the purposes of this Act, and may exercise the functions herein conferred upon the chairman of the board of directors of each Federal reserve bank pending the complete organization of such bank.

At the first meeting of the full board of directors of each Federal reserve bank, it shall be the duty of the directors of classes A, B and C, respectively, to designate one of the members of each class whose term of office shall expire in one year from the first of January nearest to date of such meeting, one whose term of office shall expire at the end of two years from said date, and one whose term of office shall expire at the end of three years from said date. Thereafter every director of a Federal reserve bank chosen as hereinbefore provided shall hold office for a term of three years. Vacancies that may occur in the several classes of directors of Federal reserve banks may be filled in the manner provided for the original selection of such directors, such appointees to hold office for the unexpired terms of their predecessors (Dec 23, 1913, c 6, § 4, 38 Stat 254, amended, June 21, 1917, c 32, § 2, 40 Stat 232, and Sept 26, 1918, c 177, § 1, 40 Stat 968.)

Subdivision 5 of this section was again amended by Act Sept. 26, 1918, c 177, § 1, cited above, by striking out from this subdivision the following:

"Directors of Class A and Class B shall be chosen in the following manner:

"The chairman of the board of directors of the Federal reserve bank of the district in which the bank is situated or, pending the appointment of such chairman, the organization committee shall classify the member banks of the district into three general groups or divisions. Each group shall contain as nearly as may be one-third of the aggregate number of the member banks of the district, and shall consist, as nearly as may be, of banks of similar capitalization. The groups shall be designated by number by the chairman.

"At a regularly called meeting of the board of directors of each member bank in the district it shall elect by ballot a district reserve elector and shall certify his name to the chairman of the board of directors of the Federal reserve bank of the district. The chairman shall make lists of the district reserve electors thus named by banks in each of the aforesaid three groups and shall transmit one list to each elector in each group.

"Each member bank shall be permitted to nominate to the chairman one candidate for director of Class A and one candidate for director of Class B. The candidates so nominated shall be listed by the chairman, indicating by whom nominated, and a copy of said list shall, within fifteen days after its completion, be furnished by the chairman to each elector.

"Every director shall, within fifteen days after the receipt of the said list, certify to the chairman his first, second, and other choices of a director of Class A and Class B, respectively, upon a preferential ballot, on a form furnished by the chairman of the board of directors of the Federal reserve bank of the district. Each elector shall make a cross opposite the name of the first, second, and other choices for a director of Class A and for a director of Class B, but shall not vote more than one choice for any one candidate"—and by

inserting in lieu thereof the provision beginning with "Directors of Class A and Class B shall be chosen in the following manner," and ending with "having the largest aggregate resources of any of those of which such person is an officer or director," so as to make the subdivision read as set forth above.

DIVISION OF EARNINGS

§ 9791. (1) Dividends on stock of reserve banks; franchise tax on net earnings; surplus fund—After all necessary expenses of a Federal reserve bank have been paid or provided for, the stockholders shall be entitled to receive an annual dividend of six per centum on the paid-in capital stock, which dividend shall be cumulative. After the aforesaid dividend claims have been fully met, the net earnings shall be paid to the United States as a franchise tax except that the whole of such net earnings, including those for the year ending December thirty-first, nineteen hundred and eighteen, shall be paid into a surplus fund until it shall amount to one hundred per centum of the subscribed capital stock of such bank, and that thereafter ten per centum of such net earnings shall be paid into the surplus.

This paragraph was amended by Act March 3, 1919, c 101, § 1, cited above, to read as set forth above. Prior to this amendment this paragraph read as follows:

"After the aforesaid dividend claims have been fully met, all the net earnings shall be paid to the United States as a franchise tax except that one-half of such net earnings shall be paid into a surplus fund until it shall amount to forty per centum of the paid-in capital stock of such bank."

(2) Disposition of net earnings paid as franchise tax; disposition of surplus fund on dissolution or insolvency of reserve bank—The net earnings derived by the United States from Federal reserve banks shall, in the discretion of the Secretary, be used to supplement the gold reserve held against outstanding United States notes, or shall be applied to the reduction of the outstanding bonded indebtedness of the United States under regulations to be prescribed by the Secretary of the Treasury. Should a Federal reserve bank be dissolved or go into liquidation, any surplus remaining, after the payment of all debts, dividend requirements as hereinbefore provided, and the par value of the stock, shall be paid to and become the property of the United States and shall be similarly applied.

(3) Exemption from taxation—Federal reserve banks, including the capital stock and surplus thereon, and the income derived therefrom shall be exempt from Federal, State, and local taxation, except taxes upon real estate (Dec 23, 1913, c 6, § 7, 38 Stat 258, amended, March 3, 1919, c 101, § 1, 40 Stat 1314.)

STATE BANKS AS MEMBERS

§ 9792. (1) Application for membership—Any bank incorporated by special law of any State, or organized under the general laws of any State or of the United States, desiring to become a member of the Federal Reserve System, may make application to the Federal Reserve Board, under such rules and regulations as it may prescribe, for the right to subscribe to the stock of the Federal reserve bank organized within the district in which the applying bank is located. Such application shall be for the same amount of stock that the applying bank would be required to subscribe to as a national bank. The Federal Reserve Board, subject to such conditions as it may prescribe, may permit the applying bank to become a stockholder of such Federal reserve bank.

(2) Determination on application—In acting upon such applications the Federal Reserve Board shall consider the financial condition of the applying

bank, the general character of its management, and whether or not the corporate powers exercised are consistent with the purposes of this Act

(3) Stock in Federal reserve banks; how paid for.—Whenever the Federal Reserve Board shall permit the applying bank to become a stockholder in the Federal reserve bank of the district its stock subscription shall be payable on call of the Federal Reserve Board, and stock issued to it shall be held subject to the provisions of this Act

(4) Laws applicable on becoming members.—All banks admitted to membership under authority of this section shall be required to comply with the reserve and capital requirements of this Act and to conform to those provisions of law imposed on national banks which prohibit such banks from lending on or purchasing their own stock, which relate to the withdrawal or impairment of their capital stock, and which relate to the payment of unearned dividends. Such banks and the officers, agents, and employees thereof shall also be subject to the provisions of and to the penalties prescribed by section fifty-two hundred and nine of the Revised Statutes, and shall be required to make reports of condition and of the payment of dividends to the Federal reserve bank of which they become a member. Not less than three of such reports shall be made annually on call of the Federal reserve bank on dates to be fixed by the Federal Reserve Board. Failure to make such reports within ten days after the date they are called for shall subject the offending bank to a penalty of \$100 a day for each day that it fails to transmit such report; such penalty to be collected by the Federal reserve bank by suit or otherwise

(5) Examinations.—As a condition of membership such banks shall likewise be subject to examinations made by direction of the Federal Reserve Board or of the Federal reserve bank by examiners selected or approved by the Federal Reserve Board.

(6) Acceptance of examinations and reports by state authorities; special examinations.—Whenever the directors of the Federal reserve bank shall approve the examinations made by the State authorities, such examinations and the reports thereof may be accepted in lieu of examinations made by examiners selected or approved by the Federal Reserve Board: Provided, however, That when it deems it necessary the board may order special examinations by examiners of its own selection and shall in all cases approve the form of the report. The expenses of all examinations, other than those made by State authorities, shall be assessed against and paid by the banks examined.

(7) Surrender of stock and cancellation of memberships.—If at any time it shall appear to the Federal Reserve Board that a member bank has failed to comply with the provisions of this section or the regulations of the Federal Reserve Board made pursuant thereto, it shall be within the power of the board after hearing to require such bank to surrender its stock in the Federal reserve bank and to forfeit all rights and privileges of membership. The Federal Reserve Board may restore membership upon due proof of compliance with the conditions imposed by this section.

(8) Withdrawals from membership.—Any State bank or trust company desiring to withdraw from membership in a Federal reserve bank may do so, after six months' written notice shall have been filed with the Federal Reserve Board, upon the surrender and cancellation of all of its holdings of capital stock in the Federal reserve bank: Provided, however, That no Federal reserve bank shall, except under express authority of the Federal Reserve Board, cancel

within the same calendar year more than twenty-five per centum of its capital stock for the purpose of effecting voluntary withdrawals during that year. All such applications shall be dealt with in the order in which they are filed with the board. Whenever a member bank shall surrender its stock holdings in a Federal reserve bank, or shall be ordered to do so by the Federal Reserve Board, under authority of law all of its rights and privileges as a member bank shall thereupon cease and determine, and after due provision has been made for any indebtedness due or to become due to the Federal reserve bank it shall be entitled to a refund of its cash paid subscription with interest at the rate of one-half of one per centum per month from date of last dividend, if earned, the amount refunded in no event to exceed the book value of the stock at that time, and shall likewise be entitled to repayment of deposits and of any other balance due from the Federal reserve bank.

(9) Capital stock required as condition precedent to membership.—No applying bank shall be admitted to membership in a Federal reserve bank unless (a) it possesses a paid-up, unimpaired capital sufficient to entitle it to become a national banking association in the place where it is situated under the provisions of the National Bank Act, or (b) it possesses a paid-up, unimpaired capital of at least 60 per centum of the amount sufficient to entitle it to become a national banking association in the place where it is situated under the provisions of the National Bank Act and, under penalty of loss of membership complies with rules and regulations which the Federal Reserve Board shall prescribe fixing the time within which and the method by which the unimpaired capital of such bank shall be increased out of net income to equal the capital which would have been required if such bank had been admitted to membership under the provisions of clause (a) of this paragraph: Provided, That every such rule or regulation shall require the applying bank to set aside annually not less than 20 per centum of its net income of the preceding year as a fund exclusively applicable to such capital increase.

(10) Laws applicable on becoming members; discounts for state banks.—Banks becoming members of the Federal Reserve System under authority of this section shall be subject to the provisions of this section and to those of this Act which relate specifically to member banks, but shall not be subject to examination under the provisions of the first two paragraphs of section fifty-two hundred and forty of the Revised Statutes as amended by section twenty-one of this Act. Subject to the provisions of this Act and to the regulations of the board made pursuant thereto, any bank becoming a member of the Federal Reserve System shall retain its full charter and statutory rights as a State bank or trust company, and may continue to exercise all corporate powers granted it by the State in which it was created, and shall be entitled to all privileges of member banks. Provided, however, That no Federal reserve bank shall be permitted to discount for any State bank or trust company notes, drafts, or bills of exchange of any one borrower who is liable for borrowed money to such State bank or trust company in an amount greater than that which could be borrowed lawfully from such State bank or trust company were it a national banking association. The Federal reserve bank, as a condition of the discount of notes, drafts, and bills of exchange for such State bank or trust company, shall require a certificate or guaranty to the effect that the borrower is not liable to such bank in excess of the amount provided by this section, and will not be permitted to become liable in excess of this amount while such notes, drafts,

or bills of exchange are under discount with the Federal reserve bank.

(11) Certifying checks on state banks admitted as members.—It shall be unlawful for any officer, clerk, or agent of any bank admitted to membership under authority of this section to certify any check drawn upon such bank unless the person or company drawing the check has on deposit therewith at the time such check is certified an amount of money equal to the amount specified in such check. Any check so certified by duly authorized officers shall be a good and valid obligation against such bank, but the act of any such officer, clerk, or agent in violation of this section may subject such bank to a forfeiture of its membership in the Federal Reserve System upon hearing by the Federal Reserve Board. (Dec. 23, 1913, c. 6, § 9, 38 Stat. 259, amended June 21, 1917, c. 32, § 3, 40 Stat. 232, July 1, 1922, c. 274, 42 Stat. 821, and March 4, 1923, c. 252, title IV, § 401, 42 Stat. 1478.)

This section was again amended by Act July 1, 1922, c. 274, 42 Stat. 831, cited above, by changing the proviso in paragraph (10) to read as set forth above. Prior to this amendment said proviso read as follows: "Provided, however, That no Federal reserve bank shall be permitted to discount for any State bank or trust company notes, drafts, or bills of exchange of any one borrower who is liable for borrowed money to such State bank or trust company in an amount greater than ten per centum of the capital and surplus of such State bank or trust company, but the discount of bills of exchange drawn against actually existing value and the discount of commercial or business paper actually owned by the person negotiating the same shall not be considered as borrowed money within the meaning of this section."

It was again amended by Act March 4, 1923, c. 252, title IV, § 401, cited above, by changing the ninth paragraph thereof to read as set forth above.

FEDERAL RESERVE BOARD

§ 9793. (1) Number of members; appointment; ex officio members; salaries.—A Federal Reserve Board is hereby created which shall consist of eight members, including the Secretary of the Treasury and the Comptroller of the Currency, who shall be members ex officio, and six members appointed by the President of the United States, by and with the advice and consent of the Senate. In selecting the six appointive members of the Federal Reserve Board, not more than one of whom shall be selected from any one Federal reserve district, the President shall have due regard to a fair representation of the financial, agricultural, industrial and commercial interests, and geographical divisions of the country. The six members of the Federal Reserve Board appointed by the President and confirmed as aforesaid shall devote their entire time to the business of the Federal Reserve Board and shall each receive an annual salary of \$12,000, payable monthly, together with actual necessary traveling expenses, and the Comptroller of the Currency, as ex officio member of the Federal Reserve Board, shall, in addition to the salary now paid him as Comptroller of the Currency, receive the sum of \$7,000 annually for his services as a member of said board.

This paragraph was amended by Act June 3, 1922, c. 205, 42 Stat. 620, to read as set forth above. For this paragraph, as originally enacted, see U. S. Comp. St. 1918, § 9793(1).

(2) Ineligibility to hold office in member banks; qualifications and terms of office of members; governor and vice governor; office for board; oath of office.—The Secretary of the Treasury and the Comptroller of the Currency shall be ineligible during the time they are in office and for two years thereafter to hold any office, position, or employment in any member bank. The appointive members of the Federal Reserve Board shall be ineligible during the time they are in office and for two years there-

after to hold any office, position, or employment in any member bank, except that this restriction shall not apply to a member who has served the full term for which he was appointed. Of the six members thus appointed by the President one shall be designated by the President to serve for two, one for four, one for six, one for eight and the balance of the members for ten years, and thereafter each member so appointed shall serve for a term of ten years, unless sooner removed for cause by the President. Of the six persons thus appointed, one shall be designated by the President as governor and one as vice governor of the Federal Reserve Board. The governor of the Federal Reserve Board, subject to its supervision, shall be the active executive officer. The Secretary of the Treasury may assign offices in the Department of the Treasury for the use of the Federal Reserve Board. Each member of the Federal Reserve Board shall within fifteen days after notice of appointment make and subscribe to the oath of office.

This paragraph was amended by Act March 3, 1919, c. 101, § 2, 40 Stat. 1315, to read as follows:

"The Secretary of the Treasury and the Comptroller of the Currency shall be ineligible during the time they are in office and for two years thereafter to hold any office, position, or employment in any member bank. The appointive members of the Federal Reserve Board shall be ineligible during the time they are in office and for two years thereafter to hold any office, position, or employment in any member bank, except that this restriction shall not apply to a member who has served the full term for which he was appointed. Of the five members thus appointed by the President at least two shall be persons experienced in banking or finance. One shall be designated by the President to serve for two, one for four, one for six, one for eight, and one for ten years, and thereafter each member so appointed shall serve for a term of ten years unless sooner removed for cause by the President. Of the five persons thus appointed, one shall be designated by the President as governor and one as vice governor of the Federal Reserve Board. The governor of the Federal Reserve Board, subject to its supervision, shall be the active executive officer. The Secretary of the Treasury may assign offices in the Department of the Treasury for the use of the Federal Reserve Board. Each member of the Federal Reserve Board shall within fifteen days after notice of appointment make and subscribe to the oath of office."

For this paragraph, prior to this amendment, see U. S. Comp. St. 1918, § 9793(2). It was again amended by Act June 3, 1922, c. 205, 42 Stat. 620, to read as set forth above.

(3) Assessments to pay expenses.—The Federal Reserve Board shall have power to levy semiannually upon the Federal reserve banks, in proportion to their capital stock and surplus, an assessment sufficient to pay its estimated expenses and the salaries of its members and employees for the half year succeeding the levying of such assessment, together with any deficit carried forward from the preceding half year.

(4) First meeting; members not to hold stock; vacancies.—The first meeting of the Federal Reserve Board shall be held in Washington, District of Columbia, as soon as may be after the passage of this Act, at a date to be fixed by the Reserve Bank Organization Committee. The Secretary of the Treasury shall be ex officio chairman of the Federal Reserve Board. No member of the Federal Reserve Board shall be an officer or director of any bank, banking institution, trust company, or Federal reserve bank nor hold stock in any bank, banking institution, or trust company; and before entering upon his duties as a member of the Federal Reserve Board he shall certify under oath to the Secretary of the Treasury that he has complied with this requirement. Whenever a vacancy shall occur, other than by expiration of term, among the six members of the Federal Reserve Board appointed by the President, as above provided, a successor shall be appointed by the President, with the advice and consent of the Senate, to fill such vacancy, and when appointed he shall hold office for the unexpired term of the member whose place he is selected to fill.

This paragraph was amended by Act June 3, 1922, c. 205, 42 Stat. 620, by substituting the word "six" for the word "five."

(5) Filling vacancies—The President shall have power to fill all vacancies that may happen on the Federal Reserve Board during the recess of the Senate by granting commissions which shall expire with the next session of the Senate

For this paragraph, as it read prior to its amendment by Act June 3, 1922, c 205, 42 Stat 620, see U S Comp St 1918, § 9793(5)

(6) Powers of Secretary of the Treasury—Nothing in this Act contained shall be construed as taking away any powers heretofore vested by law in the Secretary of the Treasury which relate to the supervision, management, and control of the Treasury Department and bureaus under such department, and wherever any power vested by this Act in the Federal Reserve Board or the Federal reserve agent appears to conflict with the powers of the Secretary of the Treasury, such powers shall be exercised subject to the supervision and control of the Secretary.

(7) Reports to Congress—The Federal Reserve Board shall annually make a full report of its operations to the Speaker of the House of Representatives, who shall cause the same to be printed for the information of the Congress (Dec. 23, 1913, c 6, § 10, 38 Stat 260, amended, March 3, 1919, c 101, § 2, 40 Stat. 1315, and June 3, 1922, c 205, 42 Stat 620)

§ 9794. Enumerated powers—The Federal Reserve Board shall be authorized and empowered:

(a) Examination of accounts of banks; publication of weekly statements—(a) To examine at its discretion the accounts, books and affairs of each Federal reserve bank and of each member bank and to require such statements and reports as it may deem necessary. The said board shall publish once each week a statement showing the condition of each Federal reserve bank and a consolidated statement for all Federal reserve banks. Such statements shall show in detail the assets and liabilities of the Federal reserve banks, single and combined, and shall furnish full information regarding the character of the money held as reserve and the amount, nature and maturities of the paper and other investments owned or held by Federal reserve banks

(b) Permitting rediscounting of discounted paper—(b) To permit, or, on the affirmative vote of at least five members of the Reserve Board to require Federal reserve banks to rediscount the discounted paper of other Federal reserve banks at rates of interest to be fixed by the Federal Reserve Board.

(c) Suspending reserve requirements; establishing graduated tax on deficiency in gold reserve—(c) To suspend for a period not exceeding thirty days, and from time to time to renew such suspension for periods not exceeding fifteen days, any reserve requirement specified in this Act. Provided, That it shall establish a graduated tax upon the amounts by which the reserve requirements of this Act may be permitted to fall below the level herein-after specified: And provided further, That when the gold reserve held against Federal reserve notes falls below forty per centum, the Federal Reserve Board shall establish a graduated tax of not more than one per centum per annum upon such deficiency until the reserves fall to thirty-two and one-half per centum, and when said reserve falls below thirty-two and one-half per centum, a tax at the rate increasing of not less than one and one-half per centum per annum upon each two and one-half per centum or fraction thereof that such reserve falls below thirty-two and one-half per centum. The tax shall be paid by the reserve bank, but the reserve bank shall add an amount equal to said tax to the rates of in-

terest and discount fixed by the Federal Reserve Board.

(d) Supervising and regulating issue and retirement of notes—(d) To supervise and regulate through the bureau under the charge of the Comptroller of the Currency the issue and retirement of Federal reserve notes, and to prescribe rules and regulations under which such notes may be delivered by the Comptroller to the Federal reserve agents applying therefor

(e) Adding to or reclassifying reserve and central reserve cities—(e) To add to the number of cities classified as reserve and central reserve cities under existing law in which national banking associations are subject to the reserve requirements set forth in section twenty of this Act, or to reclassify existing reserve and central reserve cities or to terminate their designation as such.

(f) Suspending or removing officers or directors of reserve banks—(f) To suspend or remove any officer or director of any Federal reserve bank, the cause of such removal to be forthwith communicated in writing by the Federal Reserve Board to the removed officer or director and to said bank

(g) Requiring writing off of doubtful or worthless assets of banks—(g) To require the writing off of doubtful or worthless assets upon the books and balance sheets of Federal reserve banks

(h) Suspending operations or liquidating or reorganizing banks—(h) To suspend, for the violation of any of the provisions of this Act, the operations of any Federal reserve bank, to take possession thereof, administer the same during the period of suspension, and, when deemed advisable, to liquidate or reorganize such bank.

(i) Requiring bonds of agents; making regulations for safeguarding collateral, bonds, and notes—(i) To require bonds of Federal reserve agents, to make regulations for the safeguarding of all collateral, bonds, Federal reserve notes, money or property of any kind deposited in the hands of such agents, and said board shall perform the duties, functions, or services specified in this Act, and make all rules and regulations necessary to enable said board effectively to perform the same.

(j) Exercising supervision over reserve banks—(j) To exercise general supervision over said Federal reserve banks

(k) Permitting national banks to act as fiduciaries—(k) To grant by special permit to national banks applying therefor, when not in contravention of State or local law, the right to act as trustee, executor, administrator, registrar of stocks and bonds, guardian of estates, assignee, receiver, committee of estates of lunatics, or in any other fiduciary capacity in which State banks, trust companies, or other corporations which come into competition with national banks are permitted to act under the laws of the State in which the national bank is located.

Whenever the laws of such State authorize or permit the exercise of any or all of the foregoing powers by State banks, trust companies, or other corporations which compete with national banks, the granting to and the exercise of such powers by national banks shall not be deemed to be in contravention of State or local law within the meaning of this Act.

National banks exercising any or all of the powers enumerated in this subsection shall segregate all assets held in any fiduciary capacity from the general assets of the bank and shall keep a separate set of books and records showing in proper detail all transactions engaged in under authority of this subsection. Such books and records shall be open to inspection by the State authorities to the same extent as the

books and records of corporations organized under State law which exercise fiduciary powers, but nothing in this Act shall be construed as authorizing the State authorities to examine the books, records, and assets of the national bank which are not held in trust under authority of this subsection.

No national bank shall receive in its trust department deposits of current funds subject to check or the deposit of checks, drafts, bills of exchange, or other items for collection or exchange purposes. Funds deposited or held in trust by the bank awaiting investment shall be carried in a separate account and shall not be used by the bank in the conduct of its business unless it shall first set aside in the trust department United States bonds or other securities approved by the Federal Reserve Board.

In the event of the failure of such bank the owners of the funds held in trust for investment shall have a lien on the bonds or other securities so set apart in addition to their claim against the estate of the bank.

Whenever the laws of a state require corporations acting in a fiduciary capacity, to deposit securities with the State authorities for the protection of private or court trusts, national banks so acting shall be required to make similar deposits and securities so deposited shall be held for the protection of private or court trusts, as provided by the State law.

National banks in such cases shall not be required to execute the bond usually required of individuals if State corporations under similar circumstances are exempt from this requirement.

National banks shall have power to execute such bond when so required by the laws of the State.

In any case in which the laws of a State require that a corporation acting as trustee, executor, administrator, or in any capacity specified in this section, shall take an oath or make an affidavit, the president, vice president, cashier, or trust officer of such national bank may take the necessary oath or execute the necessary affidavit.

It shall be unlawful for any national banking association to lend any officer, director, or employee any funds held in trust under the powers conferred by this section. Any officer, director, or employee making such loan, or to whom such loan is made, may be fined not more than \$5,000, or imprisoned not more than five years, or may be both fined and imprisoned, in the discretion of the court.

In passing upon applications for permission to exercise the powers enumerated in this subsection, the Federal Reserve Board may take into consideration the amount of capital and surplus of the applying bank, whether or not such capital and surplus is sufficient under the circumstances of the case, the needs of the community to be served, and any other facts and circumstances that seem to it proper, and may grant or refuse the application accordingly: Provided, That no permit shall be issued to any national banking association having a capital and surplus less than the capital and surplus required by State law of State banks, trust companies, and corporations exercising such powers.

This section was again amended by Act Sept 26, 1913, c. 177, § 2, cited above, by making subdivision (k) read as set forth above. Prior to this amendment said subdivision read as follows: "(k) To grant by special permit to national banks applying therefor, when not in contravention of State or local law, the right to act as trustees, executor, administrator, or registrar of stocks and bonds under such rules and regulations as the said board may prescribe."

(l) Employing attorneys, experts, assistants and clerks; salaries and fees; civil service rules not applicable.—(1) To employ such attorneys, experts, assistants, clerks, or other employees as may be deemed necessary to conduct the business of the board. All salaries and fees shall be fixed in advance by said board and shall be paid in the same manner

as the salaries of the members of said board. All such attorneys, experts, assistants, clerks, and other employees shall be appointed without regard to the provisions of the Act of January sixteenth, eighteen hundred and eighty-three (volume twenty-two, United States Statutes at Large, page four hundred and three), and amendments thereto, or any rule or regulation made in pursuance thereof. Provided, That nothing herein shall prevent the President from placing said employees in the classified service.

(m) Discount of notes, drafts, etc., for member banks.—Upon the affirmative vote of not less than five of its members, the Federal Reserve Board shall have power to permit Federal reserve banks to discount for any member bank notes, drafts, or bills of exchange bearing the signature or endorsement of any one borrower in excess of the amount permitted by section 9 and section 13 of this Act, but in no case to exceed 20 per centum of the member bank's capital and surplus. Provided, however, That all such notes, drafts, or bills of exchange discounted for any member bank in excess of the amount permitted under such sections shall be secured by not less than a like face amount of bonds or notes of the United States issued since April 24, 1917, for which the borrower shall in good faith prior to January 1, 1921, have paid or agreed to pay not less than the full face amount thereof, or certificates of indebtedness of the United States: Provided further, That the provisions of this subsection (m) shall not be operative after October 31, 1921 (Dec. 23, 1913, c. 6, § 11, 38 Stat. 261, amended, Sept 7, 1916, c. 461, 39 Stat. 752, Sept 26, 1918, c. 177, § 2, 40 Stat. 968, March 3, 1919, c. 101, § 3, 40 Stat. 1315, and Feb. 27, 1921, c. 75, 41 Stat. 1146.)

This paragraph was amended by Act March 3, 1919, c. 101, § 3, 40 Stat. 1315, to read as follows: "Upon the affirmative vote of not less than five of its members, the Federal Reserve Board shall have power to permit Federal reserve banks to discount for any member bank notes, drafts, or bills of exchange bearing the signature or endorsement of any one borrower in excess of the amount permitted by section nine and section thirteen of this Act, but in no case to exceed twenty per centum of the member bank's capital and surplus. Provided, however, That all such notes, drafts, or bills of exchange discounted for any member bank in excess of the amount permitted under such sections shall be secured by not less than a like face amount of bonds or notes of the United States issued since April twenty-fourth, nineteen hundred and seventeen, or certificates of indebtedness of the United States. Provided further, That the provisions of this subsection (m) shall not be operative after December thirty-first, nineteen hundred and twenty."

Prior to this amendment the paragraph read as follows: "Upon the affirmative vote of not less than five of its members the Federal Reserve Board shall have power, from time to time, by general ruling, covering all districts alike, to permit member banks to carry in the Federal reserve banks of their respective districts any portion of their reserves now required by section nineteen of this Act to be held in their own vaults."

It was again amended by Act Feb 27, 1921, c. 75, 41 Stat. 1146, to read as set forth above.

POWERS OF FEDERAL RESERVE BANKS

§ 9796. (1) Deposits with Federal reserve banks.—Any Federal reserve bank may receive from any of its member banks, and from the United States, deposits of current funds in lawful money, national bank notes, Federal reserve notes, or checks, and drafts, payable upon presentation, and also, for collection, maturing notes and bills; or, solely for purposes of exchange or of collection, may receive from other Federal reserve banks deposits of current funds in lawful money, national bank notes, or checks upon other Federal reserve banks, and checks and drafts, payable upon presentation within its district, and maturing notes and bills payable within its district; or, solely for the purposes of exchange or of collection, may receive from any nonmember bank or trust company deposits of current funds in lawful money,

national-bank notes, Federal reserve notes, checks and drafts payable upon presentation, or maturing notes and bills: Provided, Such nonmember bank or trust company maintains with the Federal reserve bank of its district a balance sufficient to offset the items in transit held for its account by the Federal reserve bank: Provided further, That nothing in this or any other section of this Act shall be construed as prohibiting a member or nonmember bank from making reasonable charges, to be determined and regulated by the Federal Reserve Board, but in no case to exceed 10 cents per \$100 or fraction thereof, based on the total of checks and drafts presented at any one time, for collection or payment of checks and drafts and remission therefor by exchange or otherwise; but no such charges shall be made against the Federal reserve banks.

(2) Discount of notes, drafts, or bills of exchange arising out of commercial transactions.—Upon the indorsement of any of its member banks, which shall be deemed a waiver of demand, notice and protest by such bank as to its own indorsement exclusively, any Federal reserve bank may discount notes, drafts, and bills of exchange arising out of actual commercial transactions, that is, notes, drafts, and bills of exchange issued or drawn for agricultural, industrial, or commercial purposes, or the proceeds of which have been used, or are to be used, for such purposes, the Federal Reserve Board to have the right to determine or define the character of the paper thus eligible for discount, within the meaning of this Act. Nothing in this Act contained shall be construed to prohibit such notes, drafts, and bills of exchange, secured by staple agricultural products, or other goods, wares, merchandise from being eligible for such discount, and the notes, drafts, and bills of exchange of factors issued as such making advances exclusively to producers of staple agricultural products in their raw state shall be eligible for such discount; but such definition shall not include notes, drafts, or bills covering merely investments or issued or drawn for the purpose of carrying or trading in stocks, bonds, or other investment securities, except bonds and notes of the Government of the United States. Notes, drafts, and bills admitted to discount under the terms of this paragraph must have a maturity at the time of discount of not more than 90 days, exclusive of grace.

(2a) Discount or purchase of bills of exchange drawn to finance domestic shipment of nonperishable marketable staple agricultural products secured by bills of lading, etc.—Upon the indorsement of any of its member banks, which shall be deemed a waiver of demand, notice, and protest by such bank as to its own indorsement exclusively, and subject to regulations and limitations to be prescribed by the Federal Reserve Board, any Federal reserve bank may discount or purchase bills of exchange payable at sight or on demand which are drawn to finance the domestic shipment of nonperishable, readily marketable staple agricultural products and are secured by bills of lading or other shipping documents conveying or securing title to such staples: Provided, That all such bills of exchange shall be forwarded promptly for collection, and demand for payment shall be made with reasonable promptness after the arrival of such staples at their destination: Provided further, That no such bill shall in any event be held by or for the account of a Federal reserve bank for a period in excess of 90 days. In discounting such bills Federal reserve banks may compute the interest to be deducted on the basis of the estimated life of each bill and adjust the discount after payment of such bills to conform to the actual life thereof.

(3) Aggregate of rediscounted notes and bills.—The aggregate of such notes, drafts, and bills bear-

ing the signature or indorsement of any one borrower, whether a person, company, firm, or corporation, rediscounted for any one bank shall at no time exceed ten per centum of the unimpaired capital and surplus of said bank; but this restriction shall not apply to the discount of bills of exchange drawn in good faith against actually existing values

(4) Discount of acceptances.—Any Federal reserve bank may discount acceptances of the kinds hereinafter described, which have a maturity at the time of discount of not more than 90 days' sight, exclusive of days of grace, and which are indorsed by at least one member bank: Provided, That such acceptances if drawn for an agricultural purpose and secured at the time of acceptance by warehouse receipts or other such documents conveying or securing title covering readily marketable staples may be discounted with a maturity at the time of discount of not more than six months' sight exclusive of days of grace.

(5) Acceptance of drafts or bills of exchange on imported or exported goods.—Any member bank may accept drafts or bills of exchange drawn upon it having not more than six months sight to run, exclusive of days of grace, which grow out of transactions involving the importation or exportation of goods, or which grow out of transactions involving the domestic shipment of goods provided shipping documents conveying or securing title are attached at the time of acceptance, or which are secured at the time of acceptance by a warehouse receipt or other such document conveying or securing title covering readily marketable staples. No member bank shall accept, whether in a foreign or domestic transaction, for any one person, company, firm, or corporation to an amount equal at any time in the aggregate to more than ten per centum of its paid-up and unimpaired capital stock and surplus, unless the bank is secured either by attached documents or by some other actual security growing out of the same transaction as the acceptance; and no bank shall accept such bills to an amount equal at any time in the aggregate to more than one-half of its paid-up and unimpaired capital stock and surplus: Provided, however, That the Federal Reserve Board, under such general regulations as it may prescribe, which shall apply to all banks alike regardless of the amount of capital stock and surplus, may authorize any member bank to accept such bills to an amount not exceeding at any time in the aggregate one hundred per centum of its paid-up and unimpaired capital stock and surplus: Provided, further, That the aggregate of acceptances growing out of domestic transactions shall in no event exceed fifty per centum of such capital stock and surplus.

(6) Advances to member banks on their notes.—Any Federal reserve bank may make advances to its member banks on their promissory notes for a period not exceeding fifteen days at rates to be established by such Federal reserve banks, subject to the review and determination of the Federal Reserve Board, provided such promissory notes are secured by such notes, drafts, bills of exchange, or bankers' acceptances as are eligible for rediscount or for purchase by Federal reserve banks under the provisions of this Act, or by the deposit or pledge of bonds or notes of the United States. (Dec. 23, 1913, c. 6, § 13, 38 Stat. 263, amended, March 3, 1915, c. 93, 38 Stat. 958, Sept. 7, 1916, c. 461, 39 Stat. 752, June 21, 1917, c. 32, §§ 4, 5, 40 Stat. 234, 235, and March 4, 1923, c. 252, title IV, §§ 402, 403, 42 Stat. 1478, 1479.)

§ 9796a. (1) Discount of notes, drafts, and bills of exchange issued or drawn for agricultural purposes or based upon live-stock.—Upon the indorsement of any of its member banks, which shall be deemed a waiver of demand, notice, and protest by

such bank as to its own indorsement exclusively, any Federal reserve bank may, subject to regulations and limitations to be prescribed by the Federal Reserve Board, discount notes, drafts, and bills of exchange issued or drawn for an agricultural purpose, or based upon live stock, and having a maturity, at the time of discount, exclusive of days of grace, not exceeding nine months, and such notes, drafts, and bills of exchange may be offered as collateral security for the issuance of Federal reserve notes under the provisions of section 16 of this Act: Provided, That notes, drafts, and bills of exchange with maturities in excess of six months shall not be eligible as a basis for the issuance of Federal reserve notes unless secured by warehouse receipts or other such negotiable documents conveying or securing title to readily marketable staple agricultural products or by chattel mortgage upon live stock which is being fattened for market

(2) **Rediscount of notes, drafts, and bills of exchange for Federal Intermediate Credit Banks**—Any Federal reserve bank may, subject to regulations and limitations to be prescribed by the Federal Reserve Board, rediscount such notes, drafts, and bills for any Federal Intermediate Credit Bank, except that no Federal reserve bank shall rediscount for a Federal Intermediate Credit Bank any such note or obligation which bears the indorsement of a nonmember State bank or trust company which is eligible for membership in the Federal reserve system, in accordance with section 9 of this Act.

(3) **Buying and selling debentures, etc., issued by Federal Intermediate Credit Banks**—Any Federal reserve bank may also buy and sell debentures and other such obligations issued by a Federal Intermediate Credit Bank or by a National Agricultural Credit Corporation, but only to the same extent as and subject to the same limitations as those upon which it may buy and sell bonds issued under Title I of the Federal Farm Loan Act.

(4) **Notes, drafts, bills of exchange, or acceptances issued or drawn by cooperative marketing associations deemed for agricultural purposes**—Notes, drafts, bills of exchange or acceptances issued or drawn by cooperative marketing associations composed of producers of agricultural products shall be deemed to have been issued or drawn for an agricultural purpose, within the meaning of this section, if the proceeds thereof have been or are to be advanced by such association to any members thereof for an agricultural purpose, or have been or are to be used by such association in making payments to any members thereof on account of agricultural products delivered by such members to the association, or if such proceeds have been or are to be used by such association to meet expenditures incurred or to be incurred by the association in connection with the grading, processing, packing, preparation for market, or marketing of any agricultural product handled by such association for any of its members: Provided, That the express enumeration in this paragraph of certain classes of paper of cooperative marketing associations as eligible for rediscount shall not be construed as rendering ineligible any other class of paper of such associations which is now eligible for rediscount.

(5) **Limitation on amount of discounts of certain notes, drafts, acceptances, or bills of exchange**—The Federal Reserve Board may, by regulation, limit to a percentage of the assets of a Federal reserve bank the amount of notes, drafts, acceptances, or bills having a maturity in excess of three months, but not exceeding six months, exclusive of days of grace, which may be discounted by such bank, and the amount of notes, drafts, bills, or acceptances having a maturity in excess of six months, but not exceeding nine months, which may be rediscounted by such

Added to the Federal Reserve Act as § 13a thereof, by Act March 4, 1923, c. 252, title IV, § 404, 42 Stat 1479, cited above.

OPEN MARKET OPERATIONS

§ 9797. (1) **Purchase or sale in open market by reserve banks of bills of exchange**—Any Federal reserve bank may, under rules and regulations prescribed by the Federal Reserve Board, purchase and sell in the open market, at home or abroad, either from or to domestic or foreign banks, firms, corporations, or individuals, cable transfers and bankers' acceptances and bills of exchange of the kinds and maturities by this Act made eligible for rediscount, with or without the indorsement of a member bank.

(2) **Powers of reserve banks**—Every Federal reserve bank shall have power.

(a) To deal in gold coin and bullion at home or abroad, to make loans thereon, exchange Federal reserve notes for gold, gold coin, or gold certificates, and to contract for loans of gold coin or bullion, giving therefor, when necessary, acceptable security, including the hypothecation of United States bonds or other securities which Federal reserve banks are authorized to hold;

(b) To buy and sell, at home or abroad, bonds and notes of the United States, and bills, notes, revenue bonds, and warrants with a maturity from date of purchase of not exceeding six months, issued in anticipation of the collection of taxes or in anticipation of the receipt of assured revenues by any State, county, district, political subdivision, or municipality in the continental United States, including irrigation, drainage and reclamation districts, such purchases to be made in accordance with rules and regulations prescribed by the Federal Reserve Board;

(c) To purchase from member banks and to sell, with or without its indorsement, bills of exchange arising out of commercial transactions, as hereinbefore defined;

Whenever any such account has been opened or agency or correspondent has been appointed by a Federal reserve bank, with the consent of or under the order and direction of the Federal Reserve Board, any other Federal reserve bank may, with the consent and approval of the Federal Reserve Board, be permitted to carry on or conduct, through the Federal reserve bank opening such account or appointing such agency or correspondent, any transaction authorized by this section under rules and regulations to be prescribed by the board.

(f) To purchase and sell in the open market, either

from or to domestic banks, firms, corporations, or individuals acceptances of Federal Intermediate Credit Banks and of National Agricultural Credit Corporations, whenever the Federal Reserve Board shall declare that the public interest so requires (Dec 23, 1913, c 6, § 14, 38 Stat. 264, amended, Sept. 7, 1916, c 461, 39 Stat 754, June 21, 1917, c 32, § 6, 40 Stat 235, April 13, 1920, c 128, 41 Stat 550 and March 4, 1923, c 252, title IV, §§ 405, 407 42 Stat 1480)

GOVERNMENT DEPOSITS

§ 9798. (1) Deposits in reserve banks and fiscal agencies thereof for United States—The money held in the general fund of the Treasury, except the five per centum fund for the redemption of outstanding national-bank notes and the funds provided in this Act for the redemption of Federal reserve notes may upon the direction of the Secretary of the Treasury, be deposited in Federal Reserve banks, which banks, when required by the Secretary of the Treasury, shall act as fiscal agents of the United States; and the revenues of the Government or any part thereof may be deposited in such banks, and disbursements may be made by checks drawn against such deposits

(2) Deposits in banks not belonging to system established by Act prohibited; member banks as depositories—No public funds of the Philippine Islands, or of the postal savings, or any Government funds, shall be deposited in the continental United States in any bank not belonging to the system established by this Act: Provided, however, That nothing in this Act shall be construed to deny the right of the Secretary of the Treasury to use member banks as depositories.

(3) Federal reserve banks as depositories for or fiscal agents of National Agricultural Credit Corporations or Federal Intermediate Credit Banks—The Federal reserve banks are hereby authorized to act as depositories for and fiscal agents of any National Agricultural Credit Corporation or Federal Intermediate Credit Bank. (Dec 23, 1913, c 6, § 15, 38 Stat 265, amended, March 4, 1923, c 252, title IV, § 406, 42 Stat 1480)

This section was amended by Act March 4, 1923, c 252, title IV, § 406, 42 Stat 1480, cited above, by adding thereto paragraph (3) as set forth above

NOTE ISSUES

§ 9799. (1) Federal reserve notes; issue; by whom and for what dues receivable; redemption—Federal reserve notes, to be issued at the discretion of the Federal Reserve Board for the purpose of making advances to Federal reserve banks through the Federal reserve agents as hereinafter set forth and for no other purpose, are hereby authorized. The said notes shall be obligations of the United States and shall be receivable by all national and member banks and Federal reserve banks and for all taxes, customs, and other public dues. They shall be redeemed in gold on demand at the Treasury Department of the United States, in the city of Washington, District of Columbia, or in gold or lawful money at any Federal reserve bank.

(2) Same; application for; collateral—Any Federal reserve bank may make application to the

local Federal reserve agent for such amount of the Federal reserve notes hereinbefore provided for as it may require. Such application shall be accompanied with a tender to the local Federal reserve agent of collateral in amount equal to the sum of the Federal reserve notes thus applied for and issued pursuant to such application. The collateral security thus offered shall be notes, drafts, bills of exchange, or acceptances acquired under the provisions of section thirteen of this Act, or bills of exchange indorsed by a member bank of any Federal reserve district and purchased under the provisions of section fourteen of this Act, or bankers' acceptances purchased under the provisions of said section fourteen, or gold or gold certificates, but in no event shall such collateral security, whether gold, gold certificates, or eligible paper, be less than the amount of Federal reserve notes applied for. The Federal reserve agent shall each day notify the Federal Reserve Board of all issues and withdrawals of Federal reserve notes to and by the Federal reserve bank to which he is accredited. The said Federal Reserve Board may at any time call upon a Federal reserve bank for additional security to protect the Federal reserve notes issued to it.

(3) Reserves against deposits and notes; return for credit or redemption of notes to bank of issue; ten per cent. penalty on issue by bank other than that of issue; redemption of notes at Treasury; exchange for gold of notes received at Treasury otherwise than for redemption; cancellation and destruction of notes unfit for circulation—Every Federal reserve bank shall maintain reserves in gold or lawful money of not less than thirty-five per centum against its deposits and reserves in gold of not less than forty per centum against its Federal reserve notes in actual circulation. Provided, however, That when the Federal reserve agent holds gold or gold certificates as collateral for Federal reserve notes issued to the bank such gold or gold certificates shall be counted as part of the gold reserve which such bank is required to maintain against its Federal reserve notes in actual circulation. Notes so paid out shall bear upon their faces a distinctive letter and serial number which shall be assigned by the Federal Reserve Board to each Federal reserve bank. Whenever Federal reserve notes issued through one Federal reserve bank shall be received by another Federal reserve bank, they shall be promptly returned for credit or redemption to the Federal reserve bank through which they were originally issued, or upon direction of such Federal reserve bank, they shall be forwarded direct to the Treasurer of the United States to be retired. No Federal reserve bank shall pay out notes issued through another under penalty of a tax of ten per centum upon the face value of notes so paid out. Notes presented for redemption at the Treasury of the United States shall be paid out of the redemption fund and returned to the Federal reserve banks through which they were originally issued, and thereupon such Federal reserve bank shall, upon demand of the Secretary of the Treasury, reimburse such redemption fund in lawful money or, if such Federal reserve notes have been redeemed by the Treasurer in gold or gold certificates, then such funds shall be reimbursed to the extent deemed necessary by the Secretary of the Treasury in gold or gold certificates, and such Federal reserve bank shall, so long as any of its Federal reserve notes remain outstanding, maintain with the Treasurer in gold an amount sufficient in the judgment of the Secretary to provide for all redemptions to be made by the Treasurer. Federal reserve notes received by the Treasurer otherwise than for redemption may be exchanged for gold out of the redemption fund hereinafter provided and

returned to the reserve bank through which they were originally issued, or they may be returned to such bank for the credit of the United States. Federal reserve notes unfit for circulation shall be returned by the Federal reserve agents to the Comptroller of the Currency for cancellation and destruction.

(4) Deposits in Treasury for redemption of notes; grant or rejection of application for notes; manner of supplying; interest; lien of notes on assets.—The Federal Reserve Board shall require each Federal reserve bank to maintain on deposit in the Treasury of the United States a sum in gold sufficient in the judgment of the Secretary of the Treasury for the redemption of the Federal reserve notes issued to such bank, but in no event less than five per centum of the total amount of notes issued less the amount of gold or gold certificates held by the Federal reserve agent as collateral security, but such deposit of gold shall be counted and included as part of the forty per centum reserve hereinbefore required. The board shall have the right, acting through the Federal reserve agent, to grant, in whole or in part or to reject entirely the application of any Federal reserve bank for Federal reserve notes, but to the extent that such application may be granted the Federal Reserve Board shall, through its local Federal reserve agent, supply Federal reserve notes to the banks so applying, and such bank shall be charged with the amount of notes issued to it and shall pay such rate of interest as may be established by the Federal Reserve Board on only that amount of such notes which equals the total amount of its outstanding Federal reserve notes less the amount of gold or gold certificates held by the Federal reserve agent as collateral security. Federal reserve notes issued to any such bank shall, upon delivery, together with such notes of such Federal reserve bank as may be issued under section eighteen of this Act upon security of United States two per centum Government bonds, become a first and paramount lien on all the assets of such bank.

(5) Reduction of liability for outstanding notes by deposit of notes and money with reserve agent; disposition of gold so deposited.—Any Federal reserve bank may at any time reduce its liability for outstanding Federal reserve notes by depositing with the Federal reserve agent its Federal reserve notes, gold, gold certificates, or lawful money of the United States. Federal reserve notes so deposited shall not be reissued, except upon compliance with the conditions of an original issue.

The Federal reserve agent shall hold such gold, gold certificates, or lawful money available exclusively for exchange for the outstanding Federal reserve notes when offered by the reserve bank of which he is a director. Upon the request of the Secretary of the Treasury the Federal Reserve Board shall require the Federal reserve agent to transmit to the Treasurer of the United States so much of the gold held by him as collateral security for Federal reserve notes as may be required for the exclusive purpose of the redemption of such Federal reserve notes, but such gold when deposited with the Treasurer shall be counted and considered as if collateral security on deposit with the Federal reserve agent.

(6) Withdrawal of collateral deposited to protect notes; substitution of other collateral or retirement of notes.—Any Federal reserve bank may at its discretion withdraw collateral deposited with the local Federal reserve agent for the protection of its Federal reserve notes issued to it and shall at the same time substitute therefor other collateral of equal amount with the approval of the Federal reserve agent under regulations to be prescribed by the Fed-

eral Reserve Board. Any Federal reserve bank may retire any of its Federal reserve notes by depositing them with the Federal reserve agent or with the Treasurer of the United States, and such Federal reserve bank shall thereupon be entitled to receive back the collateral deposited with the Federal reserve agent for the security of such notes. Federal reserve banks shall not be required to maintain the reserve or the redemption fund heretofore provided for against Federal reserve notes which have been retired. Federal reserve notes so deposited shall not be reissued except upon compliance with the conditions of an original issue.

(7) Custody and safe-keeping of notes.—All Federal reserve notes and all gold, gold certificates, and lawful money issued to or deposited with any Federal reserve agent under the provisions of the Federal Reserve Act shall hereafter be held for such agent, under such rules and regulations as the Federal Reserve Board may prescribe, in the joint custody of himself and the Federal reserve bank to which he is accredited. Such agent and such Federal reserve bank shall be jointly liable for the safe-keeping of such Federal reserve notes, gold, gold certificates, and lawful money. Nothing herein contained, however, shall be construed to prohibit a Federal reserve agent from depositing gold or gold certificates with the Federal Reserve Board, to be held by such board subject to his order, or with the Treasurer of the United States for the purposes authorized by law.

(8) Place of deposit of notes prior to delivery to banks.—When such notes have been prepared, they shall be deposited in the Treasury, or in the sub-treasury or mint of the United States nearest the place of business of each Federal reserve bank and shall be held for the use of such bank subject to the order of the Comptroller of the Currency for their delivery, as provided by this Act.

(9) Printing; denominations.—In order to furnish suitable notes for circulation as Federal reserve notes, the Comptroller of the Currency shall, under the direction of the Secretary of the Treasury, cause plates and dies to be engraved in the best manner to guard against counterfeits and fraudulent alterations, and shall have printed therefrom and numbered such quantities of such notes of the denominations of \$5, \$10, \$20, \$50, \$100, \$500, \$1,000, \$5,000, \$10,000 as may be required to supply the Federal reserve banks. Such notes shall be in form and tenor as directed by the Secretary of the Treasury under the provisions of this Act and shall bear the distinctive numbers of the several Federal reserve banks through which they are issued.

This section was again amended by Act Sept. 26, 1918, c. 177, § 3, cited above, by making paragraph 9 thereof read as set forth above. Prior to this amendment said paragraph read as follows: "The plates and dies to be procured by the Comptroller of the Currency for the printing of such circulating notes shall remain under his control and direction, and the expenses necessarily incurred in executing the laws relating to the procuring of such notes, and all other expenses incidental to their issue and retirement, shall be paid by the Federal reserve banks, and the Federal Reserve Board shall include in its estimate of expenses levied against the Federal reserve banks a sufficient amount to cover the expenses herein provided for."

(10) Examination of plates and dies.—The examination of plates, dies, bed pieces, and so forth, and regulations relating to such examination of plates, dies, and so forth, of national bank notes provided for in section fifty-one hundred and seventy-four Revised Statutes, is hereby extended to include notes herein provided for.

(11) Appropriations and paper for printing notes; reimbursement of United States for printing notes.—Any appropriation heretofore made out

of the general funds of the Treasury for engraving plates and dies, the purchase of distinctive paper, or to cover any other expense in connection with the printing of national-bank notes or notes provided for by the Act of May thirtieth, nineteen hundred and eight, and any distinctive paper that may be on hand at the time of the passage of this Act may be used in the discretion of the Secretary for the purposes of this Act, and should the appropriations heretofore made be insufficient to meet the requirements of this Act in addition to circulating notes provided for by existing law, the Secretary is hereby authorized to use so much of any funds in the Treasury not otherwise appropriated for the purpose of furnishing the notes aforesaid: Provided, however, That nothing in this section contained shall be construed as exempting national banks or Federal reserve banks from their liability to reimburse the United States for any expenses incurred in printing and issuing circulating notes.

(12) Deposit of checks and drafts for collection; charges; clearance of checks.—Every Federal reserve bank shall receive on deposit at par from member banks or from Federal reserve banks checks and drafts drawn upon any of its depositors, and when remitted by a Federal reserve bank, checks and drafts drawn by any depositor in any other Federal reserve bank or member bank upon funds to the credit of said depositor in said reserve bank or member bank. Nothing herein contained shall be construed as prohibiting a member bank from charging its actual expense incurred in collecting and remitting funds, or for exchange sold to its patrons. The Federal Reserve Board shall, by rule, fix the charges to be collected by the member banks from its patrons whose checks are cleared through the Federal reserve bank and the charge which may be imposed for the service of clearing or collection rendered by the Federal reserve bank.

(13) Rules and regulations for transfer of funds and charges therefor among banks; clearing houses.—The Federal Reserve Board shall make and promulgate from time to time regulations governing the transfer of funds and charges therefor among Federal reserve banks and their branches, and may at its discretion exercise the functions of a clearing house for such Federal reserve banks, or may designate a Federal reserve bank to exercise such functions, and may also require each such bank to exercise the functions of a clearing house for its member banks.

(14) Deposits of gold coin or gold certificates with Treasurer.—That the Secretary of the Treasury is hereby authorized and directed to receive deposits of gold coin or of gold certificates with the Treasurer or any assistant treasurer of the United States when tendered by any Federal reserve bank or Federal reserve agent for credit to its or his account with the Federal Reserve Board. The Secretary shall prescribe by regulation the form of receipt to be issued by the Treasurer or Assistant Treasurer to the Federal reserve bank or Federal reserve agent making the deposit, and a duplicate of such receipt shall be delivered to the Federal Reserve Board by the Treasurer at Washington upon proper advices from any assistant treasurer that such deposit has been made. Deposits so made shall be held subject to the orders of the Federal Reserve Board and shall be payable in gold coin or gold certificates on the order of the Federal Reserve Board to any Federal reserve bank or Federal reserve agent at the Treasury or at the Subtreasury of the United States nearest the place of business of such Federal reserve bank or such Federal reserve agent: Provided, however, That any expense incurred in shipping gold to

or from the Treasury or Subtreasuries in order to make such payments, or as a result of making such payments, shall be paid by the Federal Reserve Board and assessed against the Federal reserve banks. The order used by the Federal Reserve Board in making such payments shall be signed by the governor or vice governor, or such other officers or members as the board may by regulation prescribe. The form of such order shall be approved by the Secretary of the Treasury.

The expenses necessarily incurred in carrying out these provisions, including the cost of the certificates or receipts issued for deposits received, and all expenses incident to the handling of such deposits shall be paid by the Federal Reserve Board and included in its assessments against the several Federal reserve banks.

Gold deposits standing to the credit of any Federal reserve bank with the Federal Reserve Board shall, at the option of said bank, be counted as part of the lawful reserve which it is required to maintain against outstanding Federal reserve notes, or as a part of the reserve it is required to maintain against deposits.

Nothing in this section shall be construed as amending section six of the Act of March fourteenth, nineteen hundred, as amended by the Acts of March fourth, nineteen hundred and seven, March second, nineteen hundred and eleven, and June twelfth, nineteen hundred and sixteen, nor shall the provisions of this section be construed to apply to the deposits made or to the receipts or certificates issued under those Acts. (Dec. 23, 1913, c. 6, § 16, 38 Stat. 265, amended, Sept. 7, 1916, c. 461, 39 Stat. 754, June 21, 1917, c. 32, §§ 7, 8, 40 Stat. 236, 238, and Sept. 26, 1918, c. 177, § 3, 40 Stat. 969)

BANK RESERVES

§ 9801. (1) Demand deposits defined.—Demand deposits within the meaning of this Act shall comprise all deposits payable within thirty days, and time deposits shall comprise all deposits payable after thirty days, all savings accounts and certificates of deposit which are subject to not less than thirty days notice before payment, and all postal savings deposits.

(2) Reserves of subscribing member banks.—Every bank, banking association, or trust company which is or which becomes a member of any Federal reserve bank shall establish and maintain reserve balances with its Federal reserve bank as follows:

(a) If not in a reserve or central reserve city, as now or hereafter defined, it shall hold and maintain with the Federal reserve bank of its district an actual net balance equal to not less than seven per centum of the aggregate amount of its demand deposits and three per centum of its time deposits.

(b) If in a reserve city, as now or hereafter defined, it shall hold and maintain with the Federal reserve bank of its district an actual net balance equal to not less than ten per centum of the aggregate amount of its demand deposits and three per centum of its time deposits: Provided, however, That if located in the outlying districts of a reserve city or in territory added to such city by the extension of its corporate charter, it may, upon the affirmative vote of five members of the Federal Reserve Board, hold and maintain the reserve balances specified in paragraph (a) hereof.

(c) If in a central reserve city, as now or hereafter defined, it shall hold and maintain with the Federal reserve bank of its district an actual net balance equal to not less than thirteen per centum of the aggregate amount of its demand deposits and three per centum of its time deposits: Provided, however, That if located in the outlying districts of a central reserve

city or in territory added to such city by the extension of its corporate charter, it may, upon the affirmative vote of five members of the Federal Reserve Board, hold and maintain the reserve balances specified in paragraphs (a) or (b) thereof.

[No member bank shall keep on deposit with any State bank or trust company which is not a member bank a sum in excess of ten per centum of its own paid-up capital and surplus. No member bank shall act as the medium or agent of a nonmember bank in applying for or receiving discounts from a Federal reserve bank under the provisions of this Act, except by permission of the Federal Reserve Board.]

The required balance carried by a member bank with a Federal reserve bank may, under the regulations and subject to such penalties as may be prescribed by the Federal Reserve Board, be checked against and withdrawn by such member bank for the purpose of meeting existing liabilities. Provided, however, That no bank shall at any time make new loans or shall pay any dividends unless and until the total balance required by law is fully restored.

In estimating the balances required by this Act, the net difference of amounts due to and from other banks shall be taken as the basis for ascertaining the deposits against which required balances with Federal reserve banks shall be determined.

National banks, or banks organized under local laws, located in Alaska or in a dependency or insular possession or any part of the United States outside the continental United States may remain nonmember banks, and shall in that event maintain reserves and comply with all the conditions now provided by law regulating them; or said banks may, with the consent of the Reserve Board, become member banks of any one of the reserve districts, and shall in that event take stock, maintain reserves, and be subject to all the other provisions of this Act.] (Dec. 23, 1913, c. 6, § 19, 38 Stat. 270, amended, Aug. 15, 1914, c. 252, 38 Stat. 691, June 21, 1917, c. 32, § 10, 40 Stat. 239, and Sept. 26, 1918, c. 177, § 4, 40 Stat. 970)

This section was again amended by Act Sept. 26, 1918, c. 177, § 4, cited above, by making paragraphs b and c of this subdivision read as set forth above. Prior to this amendment said paragraphs b and c read as follows:

"(b) If in a reserve city, as now or hereafter defined, it shall hold and maintain with the Federal reserve bank of its district an actual net balance equal to not less than ten per centum of the aggregate amount of its demand deposits and three per centum of its time deposits."

"(c) If in a central reserve city, as now or hereafter defined, it shall hold and maintain with the Federal reserve bank of its district an actual net balance equal to not less than thirteen per centum of the aggregate amount of its demand deposits and three per centum of its time deposits."

The matter in the text as set forth above, contained in brackets, was a part of the amendment of this section by Act June 21, 1917, c. 32, § 10, 40 Stat. 239, which said amendatory act amended and re-enacted the whole of said section 19. The amendment of this section by Act Aug. 15, 1914, c. 252, 38 Stat. 691, amended only "subsections (b) and (c)" of the section, including (apparently) in subsection c all of the matter in the section to the end thereof. The amendment of this section by Act Sept. 26, 1918, c. 177, § 4, cited above, amended "paragraphs (b) and (c)" of this section "to read as follows"—including in the amendment, paragraphs b and c as set forth in the text above, down to the matter included in brackets. In view of the amendment by Act Aug. 15, 1914, c. 252, which included in paragraph c the remainder of the section it becomes a question of construction as to whether or not Congress intended, by its last amendment to omit the matter included in the brackets. Accordingly such matter has been inserted here as a part of the section as last amended, inclosing in brackets that portion of the section which may or may not be suspended by the last amendment.

Any bank officer, director, or employee violating this provision shall be deemed guilty of a misdemeanor and shall be imprisoned not exceeding one year or fined not more than \$5,000, or both; and may be fined a further sum equal to the money so loaned or gratuity given.

Any examiner accepting a loan or gratuity from any bank examined by him or from an officer, director, or employee thereof shall be deemed guilty of a misdemeanor and shall be imprisoned one year or fined not more than \$5,000, or both, and may be fined a further sum equal to the money so loaned or gratuity given, and shall forever thereafter be disqualified from holding office as a national bank examiner.

(b) No national bank examiner shall perform any other service for compensation while holding such office for any bank or officer, director, or employee thereof.

No examiner, public or private, shall disclose the names of borrowers or the collateral for loans of a member bank to other than the proper officers of such bank without first having obtained the express permission in writing from the Comptroller of the Currency, or from the board of directors of such bank, except when ordered to do so by a court of competent jurisdiction, or by direction of the Congress of the United States, or of either House thereof, or any committee of Congress, or of either House duly authorized. Any bank examiner violating the provisions of this subsection shall be imprisoned not more than one year or fined not more than \$5,000, or both.

(c) Except as herein provided, any officer, director, employee, or attorney of a member bank who stipulates for or receives or consents or agrees to receive any fee, commission, gift, or thing of value from any person, firm, or corporation, for procuring or endeavoring to procure for such person, firm, or corporation, or for any other person, firm, or corporation, any loan from or the purchase or discount of any paper, note, draft, check or bill of exchange by such member bank shall be deemed guilty of a misdemeanor and shall be imprisoned not more than one year or fined not more than \$5,000, or both.

(d) Any member bank may contract for, or purchase from, any of its directors or from any firm of which any of its directors is a member, any securities or other property, when (and not otherwise) such purchase is made in the regular course of business upon terms not less favorable to the bank than those offered to others, or when such purchase is authorized by a majority of the board of directors not interested in the sale of such securities or property, such authority to be evidenced by the affirmative vote or written assent of such directors. § 9835d. (1) Purposes of organization; articles of association; contents; signature to; copies for Federal land banks.—Corporations, to be known as national farm loan associations, may be organized by persons desiring to borrow money on

farm mortgage security under the terms of this Act. Such persons shall enter into articles of association which shall specify in general terms the object for which the association is formed and the territory within which its operations are to be carried on, and which may contain any other provision, not inconsistent with law, which the association may see fit to adopt for the regulation of its business and the conduct of its affairs. Said articles shall be signed by the persons uniting to form the association, and a copy thereof shall be forwarded to the Federal land bank for the district, to be filed and preserved in its office.

(2) Directors; secretary-treasurer; president; vice-president; loan committee.—Every national farm loan association shall elect, in the manner prescribed for the election of directors of national banking associations, a board of not less than five directors, who shall hold office for the same period as directors of national banking associations. It shall be the duty of said board of directors to choose in such manner as they may prefer a secretary-treasurer, who shall receive such compensation as said board of directors shall determine. The board of directors shall elect a president, a vice president, and a loan committee of three members.

(3) Compensation and qualifications of directors.—The directors and all officers except the secretary-treasurer shall serve without compensation, unless the payment of salaries to them shall be approved by the Federal Farm Loan Board. All officers and directors except the secretary-treasurer shall, during their term of office, be bona fide residents of the territory within which the association is authorized to do business, and shall be shareholders of the association.

(4) Secretary-treasurer; powers and duties; bond; reports.—It shall be the duty of the secretary-treasurer of every national farm loan association to act as custodian of its funds and to deposit the same in such bank as the board of directors may designate, to pay over to borrowers all sums received for their account from the Federal land bank upon first mortgage as in this Act prescribed, and to meet all other obligations of the association, subject to the orders of the board of directors and in accordance with the by-laws of the association. It shall be the duty of the secretary-treasurer, acting under the direction of the national farm loan association, to collect, receipt for, and transmit to the Federal land bank payments of interest, amortization installments, or principal arising out of loans made through the association. He shall be the custodian of the securities, records, papers, certificates of stock, and all documents relating to or bearing upon the conduct of the affairs of the association. He shall furnish a suitable surety bond to be prescribed and approved by the Federal Farm Loan Board for the proper performance of the duties imposed upon him under this Act, which shall cover prompt collection and transmission of funds. He shall make a quarterly report to the Federal Farm Loan Board upon forms to be provided for that purpose. Upon request from said board said secretary-treasurer shall furnish information regarding the condition of the national farm loan association for which he is acting, and he shall carry out all duly authorized orders of said board. He shall assure himself from time to time that the loans made through the national farm loan association of which he is an officer are applied to the purposes set forth in the application of the borrower as approved, and shall forthwith report to the land bank of the district any failure of any borrower to comply with the terms of his application or mortgage. He shall also ascertain and report to said bank the amount of any delinquent taxes on land mort-

gaged to said bank and the name of the delinquent. No such secretary-treasurer shall engage in the making of land mortgage loans eligible at a Federal land bank through or for any other land mortgage company or agency, and the making of any such loan by any secretary-treasurer shall forthwith work a forfeiture of his office.

This paragraph was amended by Act March 4, 1923, c 252, title III, § 305, 42 Stat 1476, by adding at the end thereof the last sentence as set forth above.

(5) Expenses of secretary-treasurer; payment

—The reasonable expenses of the secretary-treasurer, the loan committee, and other officers and agents of national farm loan associations, and the salary of the secretary-treasurer, shall be paid from the general funds of the association, and the board of directors is authorized to set aside such sums as it shall deem requisite for that purpose and for other expenses of said association. When no such funds are available, the board of directors may levy an assessment on members in proportion to the amount of stock held by each, which may be repaid as soon as funds are available, or it may secure an advance from the Federal land bank of the district, to be repaid with interest at the rate of six per centum per annum, from dividends belonging to said association. Said Federal land bank is hereby authorized to make such advance and to deduct such repayment.

(6) Number of incorporators; mode of organization; number of directors; secretary and treasurer or secretary-treasurer—Ten or more natural persons who are the owners, or about to become the owners, of farm land qualified as security for a mortgage loan under section twelve of this Act, may unite to form a national farm loan association. They shall organize subject to the requirements and the conditions specified in this section and in section four of this Act, so far as the same may be applicable. Provided, That the board of directors may consist of five members only, and instead of a secretary and a treasurer there shall be a secretary-treasurer, who need not be a shareholder of the association.

(7) Articles of association; report and affidavit accompanying; contents—When the articles of association are forwarded to the Federal land bank of the district as provided in this section, they shall be accompanied by the written report of the loan committee as required in section ten of this Act, and by an affidavit stating that each of the subscribers is the owner, or is about to become the owner, of farm land qualified under section twelve of this Act as the basis of a mortgage loan; that the loan desired by each person is not more than \$10,000, nor less than \$100, and that the aggregate of the desired loans is not less than \$20,000; that said affidavit is accompanied by a subscription to stock in the Federal land bank equal to five per centum of the aggregate sum desired on mortgage loans; and that a temporary organization of said association has been formed by the election of a board of directors, a loan committee, and a secretary-treasurer who subscribes to said affidavit, giving his residence and post office address.

(8) Investigation of solvency of applicants for incorporation; grant or refusal of charter

—Upon receipt of such articles of association, with the accompanying affidavit and stock subscription, the directors of said Federal land bank shall send an appraiser to investigate the solvency and character of the applicants and the value of their lands, and shall then determine whether in their judgment a charter should be granted to such association. They shall forward such articles of association and the accompanying affidavit to the Federal Farm Loan Board

with their recommendation. If said recommendation is unfavorable, the charter shall be refused.

(9) Grant or refusal of charter—If said recommendation is favorable, the Federal Farm Loan Board shall thereupon grant a charter to the applicants therefor, designating the territory in which such association may make loans, and shall forward said charter to said applicants through said Federal land bank. Provided, That said Federal Farm Loan Board may for good cause shown in any case refuse to grant a charter.

(10) Loans to associations from federal land banks—Upon receipt of its charter such national farm loan association shall be authorized and empowered to receive from the Federal land bank of the district sums to be loaned to its members under the terms and conditions of this Act.

(11) Loans to members; subscriptions to stock of land banks; holding stock as collateral for loan; retirement of stock—Whenever any national farm loan association shall desire to secure for any member a loan on first mortgage from the Federal land bank of its district it shall subscribe for capital stock of said land bank to the amount of five per centum of such loan, such subscription to be paid in cash upon the granting of the loan by said land bank. Such capital stock shall be held by said land bank as collateral security for the payment of said loan, but said association shall be paid any dividends accruing and payable on said capital stock while it is outstanding. Such stock may, in the discretion of the directors, and with the approval of the Federal Farm Loan Board, be paid off at par and retired, and it shall be so paid off and retired upon full payment of the mortgage loan. In such case the national farm loan association shall pay off at par and retire the corresponding shares of its stock which were issued when said land bank stock was issued.

(12) Reduction of capital stock of federal land banks—The capital stock of a Federal land bank shall not be reduced to an amount less than five per centum of the principal of the outstanding farm loan bonds issued by it (July 17, 1916, c 245, § 7, 39 Stat 365, amended, March 4, 1923, c 252, title III, § 305, 42 Stat 1476).

No loan shall be made unless the report is favorable, and the loan committee is unanimous in its approval thereof.

The written report required in the preceding paragraph shall be submitted to the Federal land bank, together with the application for the loan, and the directors of said land bank shall examine said written report when they pass on the loan application which it accompanies, but they shall not be bound by said appraisal.

Said loan committee shall examine the land which is offered as security for the desired loan and shall make a detailed written

report signed by all three members, giving the appraisal of said land as determined by them, and such other information as may be required by rules and regulations to be prescribed by the Federal Farm Loan Board. No loan shall be approved by the directors unless said loan committee agrees upon a favorable report."

(2) **Report submitted to directors of bank**—The written report of said loan committee shall be submitted to the Federal land bank, together with the application for the loan, and the directors of said land bank shall examine said written report when they pass upon the loan application which it accompanies, but they shall not be bound by said appraisal.

(3) **Reference of applications for loan to appraisers; investigation and report**—Before any mortgage loan is made by any Federal land bank, or joint stock land bank, it shall refer the application and written report of the loan committee to one or more of the land bank appraisers appointed under the authority of section three of this Act, and such appraiser or appraisers shall investigate and make a written report upon the land offered as security for said loan. No such loan shall be made by said land bank unless said written report is favorable.

(6) **Borrowers as appraisers or members of loan committees**—No borrower under this Act shall be eligible as an appraiser under this section, but borrowers may act as members of a loan committee in any case where they are not personally interested in the loan under consideration. When any member of a loan committee or of a board of directors is interested, directly or indirectly, in a loan, a majority of the board of directors of any national farm loan association shall appoint a substitute to act in his place in passing upon such loan. (July 17, 1916, c. 245, § 10, 39 Stat. 369, amended, April 20, 1920, c. 154, § 2, 41 Stat. 570)

(b) **Agreement in mortgage for repayment on amortization plan**—Second. Every such mortgage shall contain an agreement providing for the repayment of the loan on an amortization plan by means of a fixed number of annual or semiannual installments sufficient to cover, first, a charge on the loan at a rate not exceeding the interest rate in the last series of farm-loan bonds issued by the land bank making the loan; second, a charge for administration and profits at a rate not exceeding 1 per centum per annum on the unpaid principal, said two rates combined constituting the interest rate on the mortgage; and, third, such amounts to be applied on the principal as will extinguish the debt within an agreed period, not less than five years nor more than forty years. Provided, That after five years from the date upon which a loan is made the mortgagor may, upon any regular installment date, make, in advance, any number of payments or any portion thereof on account of the principal of his loan as provided by his contract or pay the entire principal of such loan, under the rules and regulations of the Federal Farm Loan Board: And provided further, That before the first issues of farm-loan bonds by any land bank the interest rate on mortgages may be determined in the discretion of said land bank, subject to the provisions and limitations of this Act.

This paragraph was amended by Act April 20, 1920, c. 154, § 4, cited above, by striking out the words "additional payments in sums of \$25, or any multiple thereof for the reduction of the principal, or the payment of the entire principal, may be made on any regular installment date," and inserting in lieu thereof the words "the mortgagor may, upon any regular installment date, make in advance any number of payments or any portion thereof on account of the principal of his loan as provided by his contract or pay the entire principal of such loan," so as to make the paragraph read as set forth above.

In making said appraisal the value of the land for agricultural purposes shall be the basis of appraisal and the earning power of said land shall be a principal factor.

A reappraisal may be permitted at any time in the discretion of the Federal land bank, and such additional loan may be granted as such reappraisal will warrant under the provisions of this paragraph. Whenever the amount of the loan applied for exceeds the amount that may be loaned under the appraisal as herein limited, such loan may be granted to the amount permitted under the terms of this paragraph without requiring a new application or appraisal.

(f) **Persons to whom loans may be made; sale of mortgaged lands; death of mortgagor**—Sixth. Taxes, liens, judgments, or assessments not paid when due, and paid by the mortgagee, shall become a part of the mortgage debt and shall bear simple interest at the rate of eight per centum per annum. Every borrower shall undertake to keep insured to the satisfaction of the Federal Farm Loan Board all buildings the value of which was a factor in determining the amount of the loan. Insurance shall be made payable to the mortgagee as its interest may appear at time of loss, and at the option of the mortgagor and subject to general regulations of the Federal Farm Loan Board, sums so received may be used to pay for reconstruction of the buildings destroyed.

(j) **Agreement by borrowers as to use of loans**—Tenth. Every borrower who shall be granted a loan under the provisions of this Act shall enter into an agreement, in form and under conditions to be prescribed by the Federal Farm Loan Board, that if the whole or any portion of his loan shall be expended for purposes other than those specified in his original application, or if the borrower shall be in default in respect to any condition or covenant of the mortgage, the whole of said loan shall, at the option of the mortgagee, become due and payable forthwith. (3) Powers, duties, and liabilities; stock—Except as otherwise provided, joint stock land banks shall have the powers of, and be subject to all the restrictions and conditions imposed on, Federal land banks by this Act, so far as such restrictions and conditions are applicable. This paragraph was amended by Act April 20, 1920, c. 154, § 5, cited above, by inserting after the word "president" the words "or vice president" and by inserting after the word "secretary" the words "or assistant secretary" and also the words "For the purpose of signing such bonds the board of directors of any Federal land bank is authorized to select a vice president who need not be a member of the board of directors," and also by striking out the words "and shall" and inserting in lieu thereof the words "such bonds shall also," so as to make the paragraph read as set forth above.

(July 18, 1918, c. 155 § 6, 40 Stat. 911.)

§ 9883a. Use of appropriations; contract price in excess of estimated cost.—No part of the funds herein or hereafter appropriated for works of river and harbor improvement shall be used to pay for any work done by private contract if the contract price is more than 25 per centum in excess of the estimated cost of doing the work by Government plant: Provided, That in estimating the cost of doing the work by Government plant, including the cost of labor and materials, there shall also be taken into account proper charges for depreciation of plant and all supervising and overhead expenses and interest on the capital invested in the Government plant, but the rate of interest shall not exceed the maximum prevailing rate being paid by the United States on current issues of bonds or other evidences of indebtedness. (March 2, 1919, c. 95, § 8, 40 Stat. 1290.)

§ 9886b. Increased cost of improvements.—The Secretary of War is hereby authorized to ascertain whether any of the contracts for work on river and harbor improvements entered into but not completed prior to April 6, 1917, the date of the entrance of the United States into war with Germany, have become inequitable and unjust on account of increased cost of materials, labor, and other unforeseen conditions arising out of the war; and to ascertain and report what amounts, if any, in addition to those fixed by the terms of said contracts, should in justice and equity be paid to contractors, for work performed between April 6, 1917, and July 18, 1918, the date of the approval of an Act entitled "An Act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes," on account of the increased cost of labor and materials and other unfore-

seen conditions arising out of the war during that period. Provided, That in every case the amount so ascertained shall not exceed the actual loss sustained by the contractor in performing the work between the said dates. Provided further, That when such amount shall have been ascertained, the Secretary of War shall transmit to Congress for consideration a statement or statements of all findings or determinations rendered by authority of this section, the amounts thereof, the names of contractors, and dates of contracts. (March 2, 1919, c. 95, § 10, 40 Stat. 1290.)

Act July 18, 1918, c. 155, § 8, 40 Stat. 912, contained such a provision which read as follows: "If the Secretary of War shall determine that any of the contracts for work of river and harbor improvements entered into but not completed prior to April sixth, nineteen hundred and seventeen, the date of the entrance of the United States into the war with Germany, have become inequitable and unjust on account of increased costs of materials and labor and other unforeseen conditions arising out of the war, he is hereby authorized, in his discretion and with the consent of the contractors, to modify and readjust the terms of said contracts in such manner as he may deem equitable and just. Provided, That such modifications and readjustments shall apply only to work under said contracts remaining to be done hereafter and shall not include any relief for work performed heretofore under said contracts, and any such sum as may be necessary to provide for the increased cost of the contracts due to said modifications and readjustments, not exceeding the sum of \$2,000,000, is hereby appropriated out of any money in the Treasury not otherwise appropriated. Provided further, That as a condition of any such contract being so modified, the Secretary of War shall have the right, at the end of any fiscal year, until the contract is completed, to make such further modifications as in his judgment shall be advantageous to the United States and just to the contractor."

in his discretion, have the work done by contract if reasonable prices can be obtained. (March 2, 1919, c 95, § 3, 40 Stat 1287)

Provided further, That no money authorized to be expended for the acquirement of any dredge or dredges shall be so expended for the purchase of any dredge or dredges from private contractors, which at the time of the proposed purchase can be manufactured at any navy yard or other Government owned factory for a sum less than it can be purchased for from such private contractor. designated collisions, accidents, and so forth, in cases where the damage or expense does not exceed \$500, and pay the same from the appropriation directly involved, and to report such as exceed \$500 to Congress for its consideration. (a) **Investigations and data; statements of licenses in projects; access to projects, maps, etc.**—To make investigations and to collect and record data concerning the utilization of the water resources of any region to be developed, the water power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development costs, and relation to markets of power sites, and whether the power from Government dams can be advantageously used by the United States for its public purposes, and what is a fair value of such power, to the extent

the commission may deem necessary or useful for the purposes of this Act

In order to aid the commission in determining the net investment of a licensee in any project, the licensee shall, upon oath, within a reasonable period of time, to be fixed by the commission, after the construction of the original project or any addition thereto or betterment thereof, file with the commission, in such detail as the commission may require, a statement in duplicate showing the actual legitimate cost of construction of such project, addition, or betterment, and the price paid for water rights, rights of way, lands, or interest in lands. The commission shall deposit one of said statements with the Secretary of the Treasury. The licensee shall grant to the commission or to its duly authorized agent or agents, at all reasonable times, free access to such project, addition, or betterment, and to all maps, profiles, contracts, reports of engineers, accounts, books, records, and all other papers and documents relating thereto.

(b) Cooperation with executive departments; information furnished to—To cooperate with the executive departments and other agencies of State or National Governments in such investigations, and for such purpose the several departments and agencies of the National Government are authorized and directed upon the request of the commission, to furnish such records, papers, and information in their possession as may be requested by the commission, and temporarily to detail to the commission such officers or experts as may be necessary in such investigations.

(c) Publication of information, etc.; reports—To make public from time to time the information secured hereunder, and to provide for the publication of its reports and investigations in such form and manner as may be best adapted for public information and use. The commission, on or before the first Monday in December of each year, shall submit to Congress for the fiscal year preceding a classified report showing the permits and licenses issued under this Act, and in each case the parties thereto, the terms prescribed, and the moneys received, if any, on account thereof.

reservation: Provided further, That no license affecting the navigable capacity of any navigable waters of the United States shall be issued until the plans of the dam or other structures affecting the navigation have been approved by the Chief of Engineers and the Secretary of War. Whenever the contemplated improvement is, in the judgment of the commission, desirable and justified in the public interest for the purpose of improving or developing a waterway or waterways for the use or benefit of interstate or foreign commerce, a finding to that effect shall be made by the commission and shall become a part of the records of the commission: Provided further, That in case the commission shall find that any Government dam may be advantageously used by the United States for public purposes in addition to navigation, no license therefor shall be issued until two years after it shall have reported to Congress the facts and conditions relating thereto, except that this provision shall not apply to any Government dam constructed prior to the passage of this Act: And provided further, That upon the filing of any application for a license which has not been preceded by a preliminary permit under subsection (e) of this section, notice shall be given and published as required by the proviso of said subsection

(e) Preliminary permits to applicants for licenses; notice of application for—To issue preliminary permits for the purpose of enabling applicants for a license hereunder to secure the data and to perform the acts required by section 9 hereof: Provided, however, That upon the filing of any application for a preliminary permit by any person, association, or corporation the commission, before granting such application, shall at once give notice of such application in writing to any State or municipality likely to be interested in or affected by such application; and shall also publish notice of such application for eight weeks in a daily or weekly newspaper published in the county or counties in which the project or any part thereof or the lands affected thereby are situated.

All such statements and reports shall be made upon oath, unless otherwise specified, and in such form and on such blanks as the commission may require. Any person who, for the purpose of deceiving, makes or causes to be made any false entry in the books or the accounts of such licensee, and any person who, for the purpose of deceiving, makes or causes to be made any false statement or report in response to a request or order or direction from the commission for the statements and report herein referred to shall, upon conviction, be fined not more than \$2,000 or imprisoned not more than five years, or both.

(c) Such additional information as the commission may require. (June 10, 1920, c. 285, § 9, 41 Stat. 1068.)

See note to § 9992½, ante.

§ 9992½g. Conditions in licenses.—All licenses issued under this Act shall be on the following conditions:

(a) **Adaptability of project.**—That the project adopted, including the maps, plans, and specifications, shall be such as in the judgment of the commission will be best adapted to a comprehensive scheme of improvement and utilization for the purposes of navigation, of water-power development, and of other beneficial public uses, and if necessary in order to secure such scheme the commission shall have authority to require the modification of any project and of the plans and specifications of the project works before approval.

(b) **Approval of alterations in projects.**—That except when emergency shall require for the protection of navigation, life, health, or property, no substantial alteration or addition not in conformity with the approved plans shall be made to any dam or other project works constructed hereunder of a capacity in excess of one hundred horsepower without the prior approval of the commission, and any emergency alteration or addition so made shall thereafter be subject to such modification and change as the commission may direct.

(c) **Maintenance and repair of projects; liability of licensee for damages.**—That the licensee shall maintain the project works in a condition of repair adequate for the purposes of navigation and for the efficient operation of said works in the development

and transmission of power, shall make all necessary renewals and replacements, shall establish and maintain adequate depreciation reserves for such purposes, shall so maintain and operate said works as not to impair navigation, and shall conform to such rules and regulations as the commission may from time to time prescribe for the protection of life, health, and property. Each licensee hereunder shall be liable for all damages occasioned to the property of others by the construction, maintenance, or operation of the project works or of the works appurtenant or accessory thereto, constructed under the license, and in no event shall the United States be liable therefor.

(d) **Amortization reserves.**—That after the first twenty years of operation out of surplus earned thereafter, if any, accumulated in excess of a specified reasonable rate of return upon the actual, legitimate investment of a licensee in any project or projects under license the licensee shall establish and maintain amortization reserves, which reserves shall, in the discretion of the commission, be held until the termination of the license or be applied from time to time in reduction of the net investment. Such specified rate of return and the proportion of such surplus earnings to be paid into and held in such reserves shall be set forth in the license.

(e) **Annual charges payable by licensees.**—That the licensee shall pay to the United States reasonable annual charges in an amount to be fixed by the commission for the purpose of reimbursing the United States for the costs of the administration of this Act; for recompensing it for the use, occupancy, and enjoyment of its lands or other property, and for the expropriation to the Government of excessive profits until the respective States shall make provision for preventing excessive profits or for the expropriation thereof to themselves, or until the period of amortization as herein provided is reached, and in fixing such charges the commission shall seek to avoid increasing the price to the consumers of power by such charges, and charges for the expropriation of excessive profits may be adjusted from time to time by the commission as conditions may require: Provided, That when licenses are issued involving the use of Government dams or other structures owned by the United States or tribal lands embraced within Indian reservations the commission shall fix a reasonable annual charge for the use thereof, and such charges may be readjusted at the end of twenty years after the beginning of operations and at periods of not less than ten years thereafter in a manner to be described in each license: Provided, That licenses for the development, transmission, or distribution of power by States or municipalities shall be issued and enjoyed without charge to the extent such power is sold to the public without profit or is used by such State or municipality for State or municipal purposes, except that as to projects constructed or to be constructed by States or municipalities primarily designed to provide or improve navigation licenses therefor shall be issued without charge; and that licenses for the development, transmission, or distribution of power for domestic, mining, or other beneficial use in projects of not more than one hundred horsepower capacity may be issued without charge, except on tribal lands within Indian reservations; but in no case shall a license be issued free of charge for the development and utilization of power created by any Government dam and that the amount charged therefor in any license shall be such as determined by the commission.

(f) **Reimbursement by licensee of other licensees, etc.**—That whenever any licensee hereunder is directly benefited by the construction work of another licensee, a permittee, or of the United States of a storage reservoir or other headwater improve-

ment, the commission shall require as a condition of the license that the licensee so benefited shall reimburse the owner of such reservoir or other improvements for such part of the annual charges for interest, maintenance, and depreciation thereon as the commission may deem equitable. The proportion of such charges to be paid by any licensee shall be determined by the commission.

Whenever such reservoir or other improvement is constructed by the United States the commission shall assess similar charges against any licensee directly benefited thereby, and any amount so assessed shall be paid into the Treasury of the United States, to be reserved and appropriated as a part of the special fund for headwater improvements as provided in section 17 hereof.

(g) **Other conditions**—Such other conditions not inconsistent with the provisions of this Act as the commission may require.

(h) **Combinations, etc., prohibited**—That combinations, agreements, arrangements, or understandings, express or implied, to limit the output of electrical energy, to restrain trade, or to fix, maintain, or increase prices for electrical energy or service are hereby prohibited.

(i) **Waiver of conditions**—In issuing licenses for a minor part only of a complete project, or for a complete project of not more than one hundred horsepower capacity, the commission may in its discretion waive such conditions, provisions, and requirements of this Act, except the license period of fifty years, as it may deem to be to the public interest to waive under the circumstances: Provided, That the provisions hereof shall not apply to lands within Indian reservations. (June 10, 1920, c. 285, § 10, 41 Stat. 1068)

See note to § 9992½, ante.

(a) **Construction of locks, booms, etc.**—That such licensee shall, to the extent necessary to preserve and improve navigation facilities, construct, in whole or in part, without expense to the United States, in connection with such dam, a lock or locks, booms, sluices, or other structures for navigation purposes, in accordance with plans and specifications approved by the Chief of Engineers and the Secretary of War and made part of such license.

(b) **Conveyance to United States of rights of way**—That in case such structures for navigation purposes are not made a part of the original construction at the expense of the licensee, then whenever the United States shall desire to complete such navigation facilities the licensee shall convey to the United States, free of cost, such of its land and its rights of way and such right of passage through its dams or other structures, and permit such control of pools as may be required to complete such navigation facilities.

(c) **Free power to United States**—That such licensee shall furnish free of cost to the United States power for the operation of such navigation facilities, whether constructed by the licensee or by the United States. (June 10, 1920, c. 285, § 11, 41 Stat. 1070.)

The periods for the commencement of construction may be extended once but not longer than two additional years and the period for the completion of construction carried on in good faith and with reasonable diligence may be extended by the commission when not incompatible with the public interests. In case the licensee shall not commence actual construction of the project works, or of any specified part thereof, within the time prescribed in the license or as extended by the commission, then, after due notice given, the license shall, as to such project works or part thereof, be terminated upon written order of the commission. In case the construction of the project works, or of any specified part thereof, have been begun but not completed within the time prescribed in the license, or as extended by the commission, then the Attorney General, upon the request of the commission, shall institute proceedings in equity in the district court of the United States for the district in which any part of the project is situated for the revocation of said license, the sale of the works constructed, and such other equitable relief as the case may demand, as provided for in section 26 hereof. (June 10, 1920, c. 285, § 13, 41 Stat. 1071.)

valuable and serviceable in the development, transmission, or distribution of power and which is then dependent for its usefulness upon the continuance of the license, together with any lock or locks or other aids to navigation constructed at the expense of the licensee, upon the condition that before taking possession it shall pay the net investment of the licensee in the project or projects taken, not to exceed the fair value of the property taken, plus such reasonable damages, if any, to property of the licensee valuable, serviceable, and dependent as above set forth but not taken, as may be caused by the severance therefrom of property taken, and shall assume all contracts entered into by the licensee with the approval of the commission. The net investment of the licensee in the project or projects so taken and the amount of such severance damages, if any, shall be determined by agreement between the commission and the licensee, and in case they cannot agree, by proceedings in equity instituted by the United States in the district court of the United States in the district within which any such property may be located: Provided, That such net investment shall not include or be affected by the value of any lands, rights of way or other property of the United States licensed by the commission under this Act, by the license, or by good will, going value, or prospective revenues: Provided further, That the values allowed for water rights, rights of way, lands, or interest in lands shall not be in excess of the actual reasonable cost thereof at the time of acquisition by the licensee. Provided, That the right of the United States or any State or municipality to take over, maintain, and operate any project licensed under this Act at any time by condemnation proceedings upon payment of just compensation is hereby expressly reserved (June 10, 1920, c. 285, § 14, 41 Stat. 1071.)

Provided, That in the event the United States does not exercise the right to take over or does not issue a license to a new licensee, or issue a new license to the original licensee, upon reasonable terms, then the commission shall issue from year to year an annual license to the then licensee under the terms and conditions of the original license until the property is taken over or a new license is issued as aforesaid (June 10, 1920, c. 285, § 15, 41 Stat. 1072.)

That in case of the development, transmission, or distribution, or use in public service of power by any licensee hereunder or by its customer engaged in public service within a State which has not authorized and empowered a commission or other agency or agencies within said State to regulate and control the services to be rendered by such licensee or by its customer engaged in public service, or the rates and charges of payment therefor, or the amount or character of securities to be issued by any of said parties, it is agreed as a condition of such license that jurisdiction is hereby conferred upon the commission, upon complaint of any person aggrieved or upon its own initiative, to exercise such regulation and control until such time as the State shall have provided a commission or other authority for such regulation and control. Provided, That the jurisdiction of the commission shall cease and determine as to each specific matter of regulation and control prescribed in this section as soon as the State shall have provided a commission or other authority for the regulation and control of that specific matter (June 10, 1920, c. 285, § 19, 41 Stat. 1073.)

The administration of the provisions of this section, so far as applicable, shall be according to the procedure and practice in fixing and regulating the rates, charges, and practices of railroad companies as provided in the Act to regulate commerce, approved Feb-

ruary 4, 1887, as amended, and that the parties subject to such regulation shall have the same rights of hearing, defense, and review as said companies in such cases.

The practice and procedure in any action or proceeding for that purpose in the district court of the United States shall conform as nearly as may be with the practice and procedure in similar action or proceeding in the courts of the State where the property is situated. of this Act shall apply to such applicant as a licensee hereunder. Provided, That when application is made for a license under this section for a project or projects already constructed, the fair value of said project or projects, determined as provided in this section, shall for the purposes of this Act and of said license be deemed to be the amount to be allowed as the net investment of the applicant in such project or projects as of the date of such license, or as of the date of such determination, if license has not been issued. Such fair value may, in the discretion of the commission, be determined by mutual agreement between the commission and the applicant or, in case they can not agree, jurisdiction is hereby conferred upon the district court of the United States in the district within which such project or projects may be located, upon the application of either party, to hear and determine the amount of such fair value (June 10, 1920, c 285, § 23, 41 Stat. 1075)

If the commission shall not so find, and if no public lands or reservations are affected, permission is hereby granted to construct such dam or other project works in such stream upon compliance with State laws. Railway operating income or any deficit therein for the test period shall be computed in the manner provided in section 1 of the Federal Control Act.

(c) **Ascertainment of amounts of railway operating income and deficits therein; test period return.**—As soon as practicable after March 1, 1920, the Commission shall ascertain for every carrier, for every month of the period of Federal control during which its railroad or system of transportation was not under Federal operation, its deficit in railway operating income, if any, and its railway operating income, if any, (hereinafter called "Federal control return"), and the average of its deficit in railway operating income, if any, and of its railway operating income, if any, for the three corresponding months of the test period taken together, (hereinafter called "test period return"): Provided, That "test period return," in the case of a carrier which operated its railroad or system of transportation for at least one year during, but not for the whole of, the test period, means its railway operating income, or the deficit therein, for the corresponding month during the test period, or the average thereof for the corresponding months during the test period taken together, during which the carrier operated its railroad or system of transportation

(d) **Ascertainment of difference between Federal control return (if deficit) and test period return, etc.**—For every month of the period of Federal control during which the railroad or system of transportation of the carrier was not under Federal operation, the Commission shall then ascertain (1) the difference between its Federal control return, if a deficit, and its test period return, if a smaller deficit, or (2) the difference between its test period return, if an income, and its Federal control return, if a smaller income, or (3) the sum of its Federal control return, if a deficit, plus its test period return, if an income. The sum of such amounts shall be credited to the carrier.

The sum of such amounts shall be credited to the United States.

(f) **Payments of difference to carrier.**—If the sum of the amounts so credited to the carrier under subdivision (d) exceeds the sum of the amounts so credited to the United States under subdivision (e), the difference shall be payable to the carrier. In the case of a carrier which operated its railroad or system of transportation for less than a year during, or for none of, the test period, the foregoing computations shall not be used, but there shall be payable to such carrier its deficit in railway operating income for that portion (as a whole) of the period of Federal control during which it operated its own railroad or system of transportation.

(g) **Certification of amounts payable to carriers; warrants and payment thereof.**—The Commission shall promptly certify to the Secretary of the Treasury the several amounts payable to carriers under paragraph (f). INSPECTION OF CARRIERS' RECORDS

§ 10071½c. Right of inspection; information furnished by carriers; penalty for refusal or obstruction of inspection—The President shall have the right, at all reasonable times until the affairs of Federal control are concluded, to inspect the property and records of all carriers whose railroads or systems of transportation were at any time under Federal control, whenever such inspection is necessary or appropriate (1) to protect the interests of the United States, or (2) to supervise matters being handled for the United States by agents of the carriers, or (3) to secure information concerning matters arising during Federal control, and such carriers shall provide all reasonable facilities therefor, including the issuance of free transportation to all agents of the President while traveling on official business for these purposes.

Such carriers shall, at their expense, upon the request of the President, or those duly authorized by him, furnish all necessary and proper information and reports compiled from the records made or kept during the period of Federal control affecting their respective lines, and shall keep and continue such records and furnish like information and reports compiled therefrom.

Any carrier which refuses or obstructs such inspection, or which willfully fails to provide reasonable facilities therefor, or to furnish such information or reports shall be liable to a penalty of \$500 for each day of the continuance of such offense, which shall accrue to the United States and may be recovered in a civil action to be brought by the United States. (Feb. 28, 1920, c. 91, § 205, 41 Stat. 461.)

CAUSES OF ACTION ARISING OUT OF FEDERAL CONTROL

§ 10071½cc. (a) Against whom brought; limitations—Actions at law, suits in equity and proceedings in admiralty, based on causes of action arising out of the possession, use or operation by the President of the railroad or system of transportation of any carrier (under the provisions of the Federal Control Act, or of the Act of August 29, 1916) of such character as prior to Federal control could have been brought against such carrier, may, after the termination of Federal control, be brought against an agent designated by the President for such purpose, which agent shall be designated by the President within thirty days after the passage of this Act. Such actions, suits, or proceedings may, within the periods of limitation now prescribed by State or Federal

statutes but not later than two years from the date of the passage of this Act, be brought in any court which but for Federal control would have had jurisdiction of the cause of action had it arisen against such carrier, except that actions to enforce awards made by the commission under the provisions of subdivision (c) against the agent so designated by the President may be brought within one year after the date of the commission's award.

This paragraph was amended by Act Feb 24, 1922, c. 70, § 1, 42 Stat 393, cited above, by adding thereto all matter after the semicolon, as set forth above.

(b) Service of process—Process may be served upon any agent or officer of the carrier operating such railroad or system of transportation, if such agent or officer is authorized by law to be served with process in proceedings brought against such carrier and if a contract has been made with such carrier by or through the President for the conduct of litigation arising out of operation during Federal control. If no such contract has been made process may be served upon such agents or officers as may be designated by or through the President. The agent designated by the President under subdivision (a) shall cause to be filed, upon the termination of Federal control, in the office of the Clerk of each District Court of the United States, a statement naming all carriers with whom he has contracted for the conduct of litigation arising out of operation during Federal control, and a like statement designating the agents or officers upon whom process may be served in actions, suits, and proceedings arising in respect to railroads or systems of transportation with the owner of which no such contract has been made, and such statements shall be supplemented from time to time, if additional contracts are made or other agents or officers appointed.

(c) Complaints for reparation; jurisdiction to hear—(c) Complaints praying for reparation on account of damage claimed to have been caused by reason of the collection or enforcement by or through the President during the period of Federal control of rates, fares, charges, classifications, regulations, or practices (including those applicable to interstate, foreign, or intrastate traffic) which were unjust, unreasonable, unjustly discriminatory, or unduly or unreasonably prejudicial, or otherwise in violation of the Interstate Commerce Act, may be filed with the commission within one year, or, if so claimed in respect of overcharges above the legal tariff charge, within two years and six months, after the termination of Federal control, against the agent designated by the President, under subdivision (a), naming in the petition the railroad or system of transportation against which such complaint would have been brought if such railroad or system had not been under the Federal control at the time the matter complained of took place. The commission is hereby given jurisdiction to hear and decide such complaints in the manner provided in the Interstate Commerce Act, and all notices and orders in such proceedings shall be served upon the agent designated by the President under subdivision (a).

This paragraph was amended by Act Feb 24, 1922, c. 70, § 2, 42 Stat 394, cited above, to read as set forth above. Prior to this amendment the paragraph read as follows: "Complaints praying for reparation on account of damage claimed to have been caused by reason of the collection or enforcement by or through the President during the period of Federal control of rates, fares, charges, classifications, regulations, or practices (including those applicable to interstate, foreign, or intrastate traffic) which were unjust, unreasonable, unjustly discriminatory, or unduly or unreasonably prejudicial, or otherwise in violation of the Interstate Commerce Act, may be filed with the Commission, within one year after the termination of Federal control, against the agent designated by the President under subdivision (a), naming in the petition the railroad or system of transportation against which such complaint would have been brought if such railroad or system had not been under Federal control at the time

the matter complained of took place. The Commission is hereby given jurisdiction to hear and decide such complaints in the manner provided in the Interstate Commerce Act, and all notices and orders in such proceedings shall be served upon the agent designated by the President under subdivision (a)."

(d) Abatement of actions—Actions, suits, proceedings, and reparation claims, of the character above described pending at the termination of Federal control shall not abate by reason of such termination, but may be prosecuted to final judgment, substituting the agent designated by the President under subdivision (a).

(e) Final judgments, decrees, or awards—Final judgments, decrees, and awards in actions, suits, proceedings, or reparation claims, of the character above described, rendered against the agent designated by the President under subdivision (a), shall be promptly paid out of the revolving fund created by section 210.

(f) Computation of limitations—The period of Federal control shall not be computed as a part of the periods of limitation in actions against carriers or in claims for reparation to the Commission for causes of action arising prior to Federal control.

(g) Execution or other process—No execution or process, other than on a judgment recovered by the United States against a carrier, shall be levied upon the property of any carrier where the cause of action on account of which the judgment was obtained grew out of the possession, use, control, or operation of any railroad or system of transportation by the President under Federal control.

(h) Death, expiration of term of office, retirement, resignation, or removal from office of Director General of Railroads, or of public officer bringing suit arising out of Federal control, not to abate, actions, etc.—Actions, suits, proceedings, and reparation claims, of the character described in subdivision (a), (c), or (d), properly commenced within the period of limitation prescribed, and pending at the time this subdivision takes effect, shall not abate by reason of the death, expiration of term of office, retirement, resignation, or removal from office of the Director General of Railroads or the agent designated under subdivision (a), but may (despite the provisions of the Act entitled "An Act to prevent the abatement of certain actions," approved February 8, 1899), be prosecuted to final judgment, decree, or award, substituting at any time before satisfaction of such final judgment, decree, or award the agent designated by the President then in office. Nor shall any action, suit, or other proceeding heretofore or hereafter brought by any public officer or official, in his official capacity, to enforce or compel the performance of an obligation due or accruing to the United States arising out of Federal control, abate by reason of the death, resignation, retirement, or removal from office of such officer or official, but such action, suit, or other proceeding may (despite the provisions of such Act of February 8, 1899), be prosecuted to final judgment, decree, or award, substituting at any time before satisfaction of any such final judgment, decree, or award the successor in office.

This paragraph and paragraph (i) were added to this section by Act March 3, 1923, c. 233, 42 Stat. 1433.

(i) Same; substitution of parties—Orders providing for a substitution in such cases made before this subdivision takes effect by courts having jurisdiction of the parties and subject matter are hereby validated, anything in such Act of February 8, 1899, to the contrary notwithstanding. Actions, suits, reparation claims, or other proceedings of the character described in subdivision (h) which have been abated or dismissed solely because of the provisions of such Act of February 8, 1899, shall be reinstated upon rea-

sonable notice to the adverse party, and upon proper motion therefor filed within one year from the time this subdivision takes effect. (Feb. 28, 1920, c. 91, § 206, 41 Stat. 461, amended, Feb. 24, 1922, c. 70, §§ 1, 2, 42 Stat. 393, 394, and March 3, 1923, c. 233, 42 Stat. 1443.)

See note to par (h) of this section, ante.

REFUNDING OF CARRIERS' INDEBTEDNESS TO UNITED STATES

§ 10071½ccc. (a) Ascertainment of amount of indebtedness; set-offs—As soon as practicable after the termination of Federal control the President shall ascertain (1) the amount of the indebtedness of each carrier to the United States, which may exist at the termination of Federal control, incurred for additions and betterments made during Federal control and properly chargeable to capital account, (2) the amount of indebtedness of such carrier to the United States otherwise incurred, and (3) the amount of the indebtedness of the United States to such carrier arising out of Federal control. The amount under clause (3) may be set off against either or both of the amounts under clauses (1) and (2), so far as deemed wise by the President, but only to the extent permitted under any contract now or hereafter made between such carrier and the United States in respect to the matters of Federal control, or, where no such contract exists, to the extent permitted under paragraph (b) of section 7 of the standard contract between the United States and the carriers relative to deductions from compensation: Provided, That such right of set-off shall not be so exercised as to prevent such carrier from having the sums required for interest, taxes, and other corporate charges and expenses referred to in paragraph (b) of section 7 of such standard contract, accruing during Federal control, and also the sums required for dividends declared and paid during Federal control including, also in addition, a sum equal to that proportion of such last dividend which the period between its payment and the termination of Federal control bears to the last regular dividend period: And provided further, That such right of set-off shall not be exercised unless there shall have first been paid such sums in addition as may be necessary to provide the carrier with working capital in amount not less than one twenty-fourth of its operating expenses for the calendar year 1919.

(b) Funding of indebtedness for additions and betterments—Any remaining indebtedness of the carrier to the United States in respect to such additions and betterments shall, at the request of the carrier, be funded for a period of ten years from the termination of Federal control, or a shorter period at the option of the carrier, with interest at the rate of 6 per centum per annum, payable semiannually, subject to the right of such carrier to pay, on any interest-payment day, the whole or any part of such indebtedness. Any carrier obtaining the funding of such indebtedness as aforesaid shall give, in the discretion of the President, such security, in such form and upon such terms, as he may prescribe.

(c) Refunding of funded indebtedness for equipment—If the President and the various carriers, or any of them, shall enter into an agreement for funding, through the medium of car trust certificates, or otherwise, the indebtedness of any such carrier to the United States incurred for equipment ordered for the benefit of such carrier, such indebtedness so funded shall not be refundable under the foregoing provisions.

(d) Notes to evidence indebtedness remaining after settlement of accounts—Any other indebted-

ness of any such carrier to the United States which may exist after the settlement of accounts between the United States and the carrier and is then due shall be evidenced by notes payable in one year from the termination of Federal control, or a shorter period at the option of the carrier, with interest at the rate of 6 per centum per annum, and secured by such collateral security as the President may deem it advisable to require.

(e) **Extension of time of payment or exchange of bonds, notes, etc., of carriers**—With respect to any bonds, notes, or other securities, acquired under the provisions of this section or of the Federal Control Act or of the Act entitled "An Act to provide for the reimbursement of the United States for motive power, cars and other equipment ordered for railroads and systems of transportation under Federal control, and for other purposes," approved November 19, 1919, the President shall have the right to make such arrangements for extension of the time of payment or for the exchange of any of them for other securities, or partly for cash and partly for securities, as may be provided for in any agreement entered into by him or as may in his judgment seem desirable.

(f) **Notes or other evidences of indebtedness**—Carriers may, by agreement with the President, issue notes or other evidences of indebtedness, secured by equipment trust agreements, for equipment purchased during Federal control by or through the President under section 6 of the Federal Control Act, and allocated to such carriers respectively, and the filing of such equipment trust agreements with the Commission shall constitute notice thereof to all the world.

(g) **Approval or notice of issue of evidences of indebtedness**—A carrier may issue evidences of indebtedness pursuant to this section without the authorization or approval of any authority, State or Federal, and without compliance with any requirement, State or Federal, as to notification. (Feb. 28, 1920, c 91, § 207, 41 Stat. 462)

EXISTING RATES TO CONTINUE IN EFFECT

§ 10071½d. (a) **Rates, fares, charges, classifications, etc., not to be reduced prior to Sept. 1, 1920**—All rates, fares, and charges, and all classifications, regulations, and practices, in any wise changing, affecting, or determining, any part or the aggregate of rates, fares, or charges, or the value of the service rendered, which on February 29, 1920, are in effect on the lines of carriers subject to the Interstate Commerce Act, shall continue in force and effect until thereafter changed by State or Federal authority, respectively, or pursuant to authority of law; but prior to September 1, 1920, no such rate, fare, or charge shall be reduced, and no such classification, regulation, or practice shall be changed in such manner as to reduce any such rate, fare, or charge, unless such reduction or change is approved by the Commission.

(b) **Divisions of joint rates, fares, or charges continued**—All divisions of joint rates, fares, or charges, which on February 29, 1920, are in effect between the lines of carriers subject to the Interstate Commerce Act, shall continue in force and effect until thereafter changed by mutual agreement between the interested carriers or by State or Federal authorities, respectively.

(c) **Compensation of land grant railroads for transportation of troops, etc.**—Any land grant railroad organized under the Act of July 28, 1866 (chapter 300), shall receive the same compensation for transportation of property and troops of the United

States as is paid to land grant railroads organized under the Land Grant Act of March 3, 1863, and the Act of July 27, 1866 (chapter 278). (Feb. 28, 1920, c. 91, § 208, 41 Stat. 464)

GUARANTY TO CARRIERS AFTER TERMINATION OF FEDERAL CONTROL

§ 10071½dd. (a) **Definitions**—(a) When used in this section—

The term "carrier" means (1) a carrier by railroad or partly by railroad and partly by water, whose railroad or system of transportation is under Federal control at the time Federal control terminates, or which has heretofore engaged as a common carrier in general transportation and competed for traffic, or connected, with a railroad at any time under Federal control, and (2) a sleeping car company whose system of transportation is under Federal control at the time Federal control terminates; but does not include a street or interurban electric railway not under Federal control at the time Federal control terminates, which has as its principal source of operating revenue urban, suburban, or interurban passenger traffic or sale of power, heat, and light, or both.

The term "guaranty period" means the six months beginning March 1, 1920.

The term "test period" means the three years ending June 30, 1917, and

The term "railway operating income" and other references to accounts of carriers by railroad shall, in the case of a sleeping car company, be construed as indicating the appropriate corresponding accounts in the accounting system prescribed by the Commission.

(b) **Acceptance of section by carriers**—This section shall not be applicable to any carrier which does not on or before March 15, 1920, file with the Commission a written statement that it accepts all the provisions of this section.

(c) **Guarantees enumerated**—The United States hereby guarantees—

(1) With respect to any carrier with which a contract (exclusive of so-called cooperative contracts or waivers) has been made fixing the amount of just compensation under the Federal Control Act, that the railway operating income of such carrier for the guaranty period as a whole shall not be less than one-half the amount named in such contract as annual compensation, or, where the contract fixed a lump sum as compensation for the whole period of Federal operation, that the railway operating income of such carrier for the guaranty period as a whole shall not be less than an amount which shall bear the same proportion to the lump sum so fixed as six months bears to the number of months during which such carrier was under Federal operation, including in both cases the increases in such compensation provided for in section 4 of the Federal Control Act;

(2) With respect to any carrier entitled to just compensation under the Federal Control Act, with which such a contract has not been made, that the railway operating income of such carrier for the guaranty period as a whole shall not be less than one-half of the annual amount estimated by the President as just compensation for such carrier under the Federal Control Act, including the increases in such compensation provided for in section 4 of the Federal Control Act. If any such carrier does not accept the President's estimate respecting its just compensation, and if in proceedings under section 3 of the Federal Control Act it is determined that a larger or smaller annual amount is due as just compensation, the guaranty under this paragraph shall be increased or decreased accordingly;

(3) With respect to any carrier, whether or not en-

titled to just compensation under the Federal Control Act, with which such a contract has not been made, and for which no estimate of just compensation is made by the President, and which for the test period as a whole sustained a deficit in railway operating income, the guaranty shall be a sum equal to (a) the amount by which any deficit in its railway operating income for the guaranty period as a whole exceeds one-half of its average annual deficit in railway operating income for the test period, plus (b) an amount equal to one-half the annual sum fixed by the President under section 4 of the Federal Control Act;

(4) With respect to any carrier not entitled to just compensation under the Federal Control Act, which for the test period as a whole had an average annual railway operating income, that the railway operating income of such carrier for the guaranty period as a whole shall not be less than one-half the average annual railway operating income of such carrier during the test period

(d) **Guaranty in excess of minimum operating income**—If for the guaranty period as a whole the railway operating income of any carrier entitled to a guaranty under paragraph (1), (2), or (4) of subdivision (c) is in excess of the minimum railway operating income guaranteed in such paragraph, such carrier shall forthwith pay the amount of such excess into the Treasury of the United States. If for the guaranty period as a whole the railway operating income of any carrier entitled to a guaranty under paragraph (3) of subdivision (c) is in excess of one-half of the annual sum fixed by the President with respect to such carrier under section 4 of the Federal Control Act, such carrier shall forthwith pay the amount of such excess into the Treasury of the United States. The amounts so paid into the Treasury of the United States shall be added to the funds made available under section 202 for the purposes indicated in such section. Notwithstanding the provisions of this subdivision, any carrier may retain out of any such excess any amount necessary to enable it to pay its fixed charges accruing during the guaranty period.

(e) **Computation of railway operating income or deficit**—For the purposes of this section railway operating income, or any deficit therein, for the test period shall be computed in the manner provided for in section 1 of the Federal Control Act.

(f) **Same**—In computing railway operating income, or any deficit therein, for the guaranty period for the purposes of this section—

(1) Debits and credits arising from the accounts, called in the monthly reports to the Commission equipment rents and joint facility rents, shall be included, but debits and credits arising from the operation of such street electric passenger railways, including railways commonly called interurbans, as are not under Federal control at the time of termination thereof, shall be excluded;

(2) Proper adjustments shall be made (a) in case any lines which were, during any portion of the period of Federal control, a part of the railroad or system of transportation of the carrier, and whose railway operating income was included in such income of the carrier for the test period, do not continue to be a part of such railroad or system of transportation during the entire guaranty period, and (b) in case of any lines acquired by, leased to, or consolidated with, the railroad or system of transportation of the carrier at any time since the end of the test period and prior to the expiration of the guaranty period, for which separate operating returns to the Commission are not made in respect to the entire portion of the guaranty period;

(3) There shall not be included in operating expenses, for maintenance of way and structures, or for maintenance of equipment, more than an amount fixed by the Commission. In fixing such amount the Commission shall so far as practicable apply the rule set forth in the proviso in paragraph (a) of section 5 of the "standard contract" between the United States and the carriers (whether or not such contract has been entered into with the carrier whose railway operating income is being computed),

(4) There shall not be included any taxes paid under Title I or II of the Revenue Act of 1917, or such portion of the taxes paid under Title II or III of the Revenue Act of 1918 as by the terms of such Act are to be treated as levied by an Act in amendment of Title I or II of the Revenue Act of 1917, and

(5) The Commission shall require the elimination and restatement of the operating expenses and revenues (other than for maintenance of way and structures, or maintenance of equipment) for the guaranty period, to the extent necessary to correct and exclude any disproportionate or unreasonable charge to such expenses or revenues for such period, or any charge to such expenses or revenues for such period which under a proper system of accounting is attributable to another period.

(g) **Ascertainment and payment of amounts guaranteed**—The Commission shall, as soon as practicable after the expiration of the guaranty period, ascertain and certify to the Secretary of the Treasury the several amounts necessary to make good the foregoing guaranty to each carrier. The Secretary of the Treasury is hereby authorized and directed thereupon to draw warrants in favor of each such carrier upon the Treasury of the United States, for the amount shown in such certificate as necessary to make good such guaranty. An amount sufficient to pay such warrants is hereby appropriated out of any money in the Treasury not otherwise appropriated.

(h) **Advances during guaranty period**—Upon application of any carrier to the Commission, asking that during the guaranty period there may be advanced to it from time to time such sums, not in excess of the estimated amount necessary to make good the guaranty, as are necessary to enable it to meet its fixed charges and operating expenses, the Commission may certify to the Secretary of the Treasury the amount of, and times at which, such advances, if any, shall be made. The Secretary of the Treasury, on receipt of such certificate, is authorized and directed to make the advances in the amounts and at the times specified in the certificate, upon the execution by the carrier of a contract, secured in such manner as the Secretary may determine, that upon final determination of the amount of the guaranty provided for by this section such carrier will repay to the United States any amounts which it has received from such advances in excess of the guaranty, with interest at the rate of 6 per centum per annum from the time such excess was paid. There is hereby appropriated, out of any money in the Treasury not otherwise appropriated, a sum sufficient to enable the Secretary of the Treasury to make the advances referred to in this subdivision.

(i) **Guaranty and advances to American Railway Express Company**—If the American Railway Express Company shall, on or before March 15, 1920, file with the Commission a written statement that it accepts all the provisions of this subdivision, the contract of June 26, 1918, between such company and the Director General of Railroads, as amended and continued by agreement dated November 21, 1918, shall remain in full force and effect during the guaranty period in so far as the same constitutes a

guaranty on the part of the United States to such company against a deficit in operating income

In computing operating income, and any deficit therein, for the guaranty period for the purposes of this subdivision, the Commission shall require the elimination and restatement of the operating expenses and revenues for the guaranty period, to the extent necessary to correct and exclude any disproportionate or unreasonable charge to such expenses or revenues for such period, or any charge to such expenses or revenues for such period which under a proper system of accounting is attributable to another period, and to exclude from operating expenses so much of the charge for payment for express privileges to carriers on whose lines the express traffic is carried as is in excess of 50.25 per centum of gross express revenue

For the guaranty period the American Railway Express Company shall pay to every carrier which accepts the provisions of this section, as provided in subdivision (b) hereof, 50.25 per centum of the gross revenue earned on the transportation of all its express traffic on the carrier's lines, and every such carrier shall accept from the American Railway Express Company such percentage of the gross revenue as its compensation. In arriving at the gross revenue on through or joint express traffic, the method of dividing the revenue between the carriers shall be that agreed upon between the carriers and such express company and approved by the Commission.

If for the guaranty period as a whole the American Railway Express Company does not have a deficit in operating income, it shall forthwith pay the amount of its operating income for such period into the Treasury of the United States. The amount so paid shall be added to the funds made available under section 202 for the purposes indicated in such section.

The Commission shall, as soon as practicable after the expiration of the guaranty period, certify to the Secretary of the Treasury the amount necessary to make good the foregoing guaranty to the American Railway Express Company. The Secretary of the Treasury is hereby authorized and directed thereupon to draw warrants in favor of such company upon the Treasury of the United States for the amount shown in such certificate as necessary to make good such guaranty. An amount sufficient to pay such warrants is hereby appropriated out of any money in the Treasury not otherwise appropriated.

Upon application of the American Railway Express Company to the Commission, asking that during the guaranty period, there may be advanced to it from time to time such sums, not in excess of the estimated amount necessary to make good the guaranty, as are necessary to enable it to meet its operating expenses, the Commission may certify to the Secretary of the Treasury the amount of, and times at which, such advances, if any, shall be made. The Secretary of the Treasury, on receipt of such certificate, is authorized and directed to make the advances in the amounts and at the times specified in the certificate, upon the execution by such company of a contract, secured in such manner as the Secretary may determine, that upon final determination of the amount of the guaranty provided for by this subdivision such company will repay to the United States any amounts which it has received from such advances in excess of the guaranty, with interest at the rate of 6 per centum per annum from the time such excess was paid. There is hereby appropriated out of any money in the Treasury not otherwise appropriated a sum sufficient to enable the Secretary of the Treasury to make the advances referred to in this subdivision. (Feb. 28, 1920, c. 91, § 209, 41 Stat. 464.)

NEW LOANS TO RAILROADS

§ 10071¼ddd. (a) Applications for loans—For the purpose of enabling carriers by railroad subject to the Interstate Commerce Act properly to serve the public during the transition period immediately following the termination of Federal control, any such carrier may, at any time after the passage of this Act, and before the expiration of two years after the termination of Federal control make application to the commission for a loan from the United States to meet its maturing indebtedness, or to provide itself with equipment or other additions and betterments, setting forth the amount of the loan, the term for which it is desired, the purpose of the loan and the use to which it will be applied, the present and prospective ability of the applicant to repay the loan and meet the requirements of its obligations in that regard, the character and value of the security offered, and the extent to which the public convenience and necessity will be served. The application shall be accompanied by statements showing such facts in detail as the commission may require with respect to the physical situation, ownership, capitalization, indebtedness, contract obligations, operation, and earning power of the applicant, together with such other facts relating to the propriety and expediency of granting the loan applied for, and the ability of the applicant to make good the obligation as the commission may deem pertinent to the inquiry.

This paragraph was amended by Act June 5, 1920, c. 235, § 5, cited above, to read as set forth above. Prior to this amendment this paragraph read as follows: "For the purpose of enabling carriers by railroad subject to the Interstate Commerce Act properly to serve the public during the transition period immediately following the termination of Federal control, any such carrier may, at any time after the passage of this Act and before the expiration of two years after the termination of Federal control, make application to the Commission for a loan from the United States, setting forth the amount of the loan and the term for which it is desired, the purpose of the loan and the uses to which it will be applied, the present and prospective ability of the applicant to repay the loan and meet the requirements of its obligations in that regard, the character and value of the security offered, and the extent to which the public convenience and necessity will be served. The application shall be accompanied by statements showing such facts and details as the Commission may require with respect to the physical situation, ownership, capitalization, indebtedness, contract obligations, operation, and earning power of the applicant, together with such other facts relating to the propriety and expediency of granting the loan applied for, and the ability of the applicant to make good the obligation, as the Commission may deem pertinent to the inquiry."

(b) Certificate of findings by Commission on applications—If the commission, after such hearing and investigation, with or without notice, as it may direct, finds that the making, in whole or in part, of the proposed loan by the United States, for one or more of the aforesaid purposes, is necessary to enable the applicant properly to meet the transportation needs of the public, and that the prospective earning power of the applicant and the character and value of the security offered are such as to furnish reasonable assurance of the applicant's ability to repay the loan within the time fixed therefor, and to meet its other obligations in connection with such loan the commission shall certify to the Secretary of the Treasury its findings of such facts; also the amount of the loan which is to be made; the time, not exceeding fifteen years from the making thereof, within which it is to be repaid; the terms and conditions of the loan, including the security to be given for repayment; that the prospective earning power of the applicant, together with the character and value of the security offered, furnish, in the opinion of the commission, reasonable assurance of the applicant's ability to repay the loan within the time fixed therefor and reasonable protection to the United States; and that the applicant, in the opinion of the commission,

is unable to provide itself with the funds necessary for the aforesaid purposes from other sources

This paragraph was amended by Act June 5, 1920, c 235, § 5, cited above, to read as set forth above. Prior to this amendment this paragraph read as follows. "If the Commission, after such hearing and investigation, with or without notice, as it may direct, finds that the making, in whole or in part, of the proposed loan by the United States is necessary to enable the applicant properly to meet the transportation needs of the public, and that the prospective earning power of the applicant and the character and value of the security offered are such as to furnish reasonable assurance of the applicant's ability to repay the loan within the time fixed therefor, and to meet its other obligations in connection with such loan, the Commission may certify to the Secretary of the Treasury its findings of fact and its recommendations as to the amount of the loan which is to be made, the time, not exceeding five years from the making thereof, within which it is to be repaid, the character of the security which is to be offered therefor, and the terms and conditions of the loan."

(c) **Terms and conditions of loans**—Upon receipt of such certificate from the commission the Secretary of the Treasury shall immediately, or as soon as practicable, make a loan of the amount recommended in such certificate out of any funds in the revolving fund provided for in this section and accept the security prescribed therefor by the commission. All such loans shall bear interest at the rate of 6 per centum per annum, payable semiannually, to the Secretary of the Treasury, and to be placed to the credit of said revolving fund. The form of obligation to be entered into shall be prescribed by the Secretary of the Treasury, but the time, not exceeding fifteen years from the making thereof, within which such loan is to be repaid, the security which is to be taken therefor, and the terms and the conditions of the loan shall be in accordance with the findings and the certificate of the commission.

This paragraph was amended by Act June 5, 1920, c 235, § 5, cited above, to read as set forth above. Prior to this amendment this paragraph read as follows. "Upon receipt of such certificate from the Commission, the Secretary of the Treasury, at any time before the expiration of twenty-six months after the termination of Federal control, is authorized to make a loan, not exceeding the maximum amount recommended in such certificate, out of any moneys in the revolving fund provided for in this section. All such loans shall bear interest at the rate of 6 per centum per annum, payable semiannually to the Secretary of the Treasury and to be placed to the credit of the revolving fund provided for in this section. Actions in equity to enjoin and abate such nuisances may be brought in any court having jurisdiction to hear and determine equity causes. The jurisdiction of the courts of the United States under this section shall be concurrent with that of the courts of the several States.

If it be made to appear by affidavit, or other evidence under oath, to the satisfaction of the court, or judge in vacation, that the nuisance complained of exists, a temporary writ of injunction shall forthwith issue restraining the defendant or defendants from conducting or permitting the continuance of such nuisance until the conclusion of the trial. The release of the property under the provisions of this section shall not release it from any judgment, lien, penalty, or liability to which it may be subject by law.

In the case of the violation of any injunction, temporary or permanent, granted pursuant to the provisions of this Title, the court, or in vacation a judge thereof, may summarily try and punish the defendant. The proceedings for punishment for contempt shall be commenced by filing with the clerk of the court from which such injunction issued information under oath setting out the alleged facts constituting the violation, whereupon the court or judge shall forthwith cause a warrant to issue under which the defendant shall be arrested. The trial may be had upon affidavits, or either party may demand the production and oral examination of the witnesses. § 10138½aaa. Same; limitation and regulation; return to United States of distilled spirits exported free of tax and reimported in original packages.—No spirituous liquor shall be imported into the United States, nor shall any permit be granted authorizing the manufacture of any spirituous liquor, save alcohol, until the amount of such liquor now in distilleries or other bonded warehouses shall have been reduced to a quantity that in the opinion of the commissioner will, with liquor that may thereafter be manufactured and imported, be sufficient to supply the current need thereafter for all nonbeverage uses. Provided, That no vinous liquor shall be imported into the United States unless it is made to appear to the commissioner that vinous liquor for such nonbeverage use produced in the United States is not sufficient to meet such nonbeverage needs: Provided further, That this provision against importation shall not apply to shipments en route to the United States at the time of the passage of this Act. And provided further, That the commissioner may authorize the return to the United States under such regulations and conditions as he may prescribe any distilled spirits of American production exported free of tax and reimported in original packages in which exported and consigned for redelivery in the distillery bonded warehouse from which originally removed. (Nov. 23, 1921, c. 134, § 2, 42 Stat. 222.)

This section is a part of § 2 of an act entitled "An act supplemental to the National Prohibition Act," cited above. See post, § 10138½, and note.

§ 10138½b. Same; exceptions; permits to manufacture certain articles; bond of manufacturer; quantity of alcohol; sale of enumerated articles for beverage purposes; punishment.—The articles enumerated in this section shall not, after having been manufactured and prepared for the market, be subject to the provisions of this Act if they correspond with the following descriptions and limitations, namely:

(a) Denatured alcohol or denatured rum produced and used as provided by laws and regulations now or hereafter in force.

(b) Medicinal preparations manufactured in accordance with formulas prescribed by the United States Pharmacopoeia, National Formulary or the American Institute of Homeopathy that are unfit for use for beverage purposes.

(c) Patented, patent, and proprietary medicines that are unfit for use for beverage purposes.

(d) Toilet, medicinal, and antiseptic preparations and solutions that are unfit for use for beverage purposes.

(e) Flavoring extracts and syrups that are unfit for use as a beverage, or for intoxicating beverage purposes.

(f) Vinogar and preserved sweet cider.

A person who manufactures any of the articles mentioned in this section may purchase and possess liquor for that purpose, but he shall secure permits to manufacture such articles and to purchase such liquor, give the bonds, keep the records, and make the reports specified in this Act and as directed by the commissioner. No such manufacturer shall sell, use, or dispose of any liquor otherwise than as an ingredient of the articles authorized to be manufactured therefrom. No more alcohol shall be used in the manufacture of any extract, syrup, or the articles named in paragraphs b, c, and d of this section which may be used for beverage purposes than the quantity necessary for extraction or solution of the elements contained therein and for the preservation of the article.

Any person who shall knowingly sell any of the articles mentioned in paragraphs a, b, c, and d of this section for beverage purposes, or any extract or sirup for intoxicating beverage purposes, or who shall sell any of the same under circumstances from which the seller might reasonably deduce the intention of the purchaser to use them for such purposes, or shall sell any beverage containing one-half of 1 per centum or more of alcohol by volume in which any extract, sirup, or other article is used as an ingredient, shall be subject to the penalties provided in section 29 of this Title. If the commissioner shall find, after notice and hearing as provided for in section 5 of this Title, that any person has sold any flavoring extract, sirup, or beverage in violation of this paragraph, he shall notify such person, and any known principal for whom the sale was made, to desist from selling such article, and it shall thereupon be unlawful for a period of one year thereafter for any person so notified to sell any such extract, sirup, or beverage without making an application for, giving a bond, and obtaining a permit so to do, which permit may be issued upon such conditions as the commissioner may deem necessary to prevent such illegal sales, and in addition the commissioner shall require a record and report of sales (Oct. 28, 1919, c. 85, title II, § 4, 41 Stat. 309)

See note to § 10138½, ante

§ 10138½bb. Analysis of manufactured articles; notice to manufacturer; revocation of permit.—Whenever the commissioner has reason to believe that any article mentioned in section 4 does not correspond with the descriptions and limitations therein provided, he shall cause an analysis of said article to be made, and if, upon such analysis, the commissioner shall find that said article does not so correspond, he shall give not less than fifteen days' notice in writing to the person who is the manufacturer thereof to show cause why said article should not be dealt with as an intoxicating liquor, such notice to be served personally or by registered mail, as the commissioner may determine, and shall specify the time when, the place where, and the name of the agent or official before whom such person is required to appear.

If the manufacturer of said article fails to show to the satisfaction of the commissioner that the article corresponds to the descriptions and limitations provided in section 4 of this Title, his permit to manufacture and sell such article shall be revoked. The manufacturer may by appropriate proceeding in a court of equity have the action of the commissioner reviewed, and the court may affirm, modify, or reverse the finding of the commissioner as the facts and law of the case may warrant, and during the pendency of such proceedings may restrain the manufacture, sale, or other disposition of such article. (Oct. 28, 1919, c. 85, title II, § 5, 41 Stat. 309.)

See note to § 10138½, ante

§ 10138½bbb. Change of formula of preparations being used as beverage or for intoxicating beverage purposes.—If the commissioner shall find after hearing, upon notice as required in section 5 of Title II of the National Prohibition Act, that any article enumerated in subdivisions b, c, d, or e of section 4 of Title II of said National Prohibition Act is being used as a beverage, or for intoxicating beverage purposes, he may require a change of formula of such article and in the event that such change is not made within a time to be named by the commissioner he may cancel the permit for the manufacture of such article unless it is made clearly to appear to the commissioner that such use can only occur in rare or exceptional instances, but such action of the commissioner may by appropriate pro-

ceedings in a court of equity be reviewed, as provided for in section 5, Title II, of said National Prohibition Act: Provided, That no change of formula shall be required and no permit to manufacture any article under subdivision (E), section 4, Title II of the National Prohibition Act shall be revoked unless the sale or use of such article is substantially increased in the community by reason of its use as a beverage or for intoxicating beverage purposes (Nov. 23, 1921, c. 134, § 2, 42 Stat. 222)

This section is a part of § 2 of an Act entitled "An act supplemental to the National Prohibition Act," cited above. See post, § 10138½, and note

§ 10138½c. Permits to manufacture, sell, purchase, transport, or prescribe liquors; exceptions; expiration of permits; wine for sacramental purposes.—No one shall manufacture, sell, purchase, transport, or prescribe any liquor without first obtaining a permit from the commissioner so to do, except that a person may, without a permit, purchase and use liquor for medicinal purposes when prescribed by a physician as herein provided, and except that any person who in the opinion of the commissioner is conducting a bona fide hospital or sanatorium engaged in the treatment of persons suffering from alcoholism, may, under such rules, regulations, and conditions as the commissioner shall prescribe, purchase and use, in accordance with the methods in use in such institution, liquor, to be administered to the patients of such institution under the direction of a duly qualified physician employed by such institution.

All permits to manufacture, prescribe, sell, or transport liquor, may be issued for one year, and shall expire on the 31st day of December next succeeding the issuance thereof. Provided, That the commissioner may without formal application or new bond extend any permit granted under this Act or laws now in force after August 31 in any year to December 31 of the succeeding year: Provided further, That permits to purchase liquor for the purpose of manufacturing or selling as provided in this Act shall not be in force to exceed ninety days from the day of issuance. A permit to purchase liquor for any other purpose shall not be in force to exceed thirty days. Permits to purchase liquor shall specify the quantity and kind to be purchased and the purpose for which it is to be used. No permit shall be issued to any person who within one year prior to the application therefor or issuance thereof shall have violated the terms of any permit issued under this Title or any law of the United States or of any State regulating traffic in liquor. No permit shall be issued to anyone to sell liquor at retail, unless the sale is to be made through a pharmacist designated in the permit and duly licensed under the laws of his State to compound and dispense medicine prescribed by a duly licensed physician. No one shall be given a permit to prescribe liquor unless he is a physician duly licensed to practice medicine and actively engaged in the practice of such profession. Every permit shall be in writing, dated when issued, and signed by the commissioner or his authorized agent. It shall give the name and address of the person to whom it is issued and shall designate and limit the acts that are permitted and the time when and place where such acts may be performed. No permit shall be issued until a verified, written application shall have been made therefor, setting forth the qualification of the applicant and the purpose for which the liquor is to be used.

The commissioner may prescribe the form of all permits and applications and the facts to be set forth therein. Before any permit is granted the commissioner may require a bond in such form and amount as he may prescribe to insure compliance with the

terms of the permit and the provisions of this title. In the event of the refusal by the commissioner of any application for a permit, the applicant may have a review of his decision before a court of equity in the manner provided in section 5 hereof.

Nothing in this title shall be held to apply to the manufacture, sale, transportation, importation, possession, or distribution of wine for sacramental purposes, or like religious rites, except section 6 (save as the same requires a permit to purchase) and section 10 hereof, and the provisions of this Act prescribing penalties for the violation of either of said sections. No person to whom a permit may be issued to manufacture, transport, import, or sell wines for sacramental purposes or like religious rites shall sell, barter, exchange, or furnish any such to any person not a rabbi, minister of the gospel, priest, or an officer duly authorized for the purpose by any church or congregation, nor to any such except upon an application duly subscribed by him, which application, authenticated as regulations may prescribe, shall be filed and preserved by the seller. The head of any conference or diocese or other ecclesiastical jurisdiction may designate any rabbi, minister, or priest to supervise the manufacture of wine to be used for the purposes and rites in this section mentioned, and the person so designated may, in the discretion of the commissioner, be granted a permit to supervise such manufacture. (Oct. 28, 1919, c. 85, title II, § 6, 41 Stat. 310.)

See note to § 10138¼, ante.

§ 10138½cc. Physicians' prescriptions.—No one but a physician holding a permit to prescribe liquor shall issue any prescription for liquor. And no physician shall prescribe liquor unless after careful physical examination of the person for whose use such prescription is sought, or if such examination is found impracticable, then upon the best information obtainable, he in good faith believes that the use of such liquor as a medicine by such person is necessary and will afford relief to him from some known ailment. Not more than a pint of spirituous liquor to be taken internally shall be prescribed for use by the same person within any period of ten days and no prescription shall be filled more than once. Any pharmacist filling a prescription shall at the time indorse upon it over his own signature the word "canceled," together with the date when the liquor was delivered, and then make the same a part of the record that he is required to keep as herein provided.

Every physician who issues a prescription for liquor shall keep a record, alphabetically arranged in a book prescribed by the commissioner, which shall show the date of issue, amount prescribed, to whom issued, the purpose or ailment for which it is to be used and directions for use, stating the amount and frequency of the dose. (Oct. 28, 1919, c. 85, title II, § 7, 41 Stat. 311.)

Same; kinds of liquor which may be prescribed; percentage of alcohol in; quantity permitted to be prescribed; number of blanks issued to physicians within given period.—Only spirituous and vinous liquor may be prescribed for medicinal purposes, and all permits to prescribe and prescriptions for any other liquor shall be void. No physician shall prescribe, nor shall any person sell or furnish on any prescription, any vinous liquor that contains more than 24 per centum of alcohol by volume, nor shall anyone prescribe or sell or furnish on any prescription more than one-fourth of one gallon of vinous liquor, or any such vinous or spirituous liquor that contains separately or in the aggregate more than one-half pint of alcohol, for

use by any person within any period of ten days. No physician shall be furnished with more than one hundred prescription blanks for use in any period of ninety days, nor shall any physician issue more than that number of prescriptions within any such period unless on application therefor he shall make it clearly apparent to the commissioner that for some extraordinary reason a larger amount is necessary, whereupon the necessary additional blanks may be furnished him. But this provision shall not be construed to limit the sale of any article the manufacture of which is authorized under section 4, Title II, of the National Prohibition Act. (Nov. 23, 1921, c. 134, § 2, 42 Stat. 222.)

The prescription blanks shall be printed in book form and shall be numbered consecutively from one to one hundred, and each book shall be given a number, and the stubs in each book shall carry the same numbers as and be copies of the prescriptions. The books containing such stubs shall be returned to the commissioner when the prescription blanks have been used, or sooner, if directed by the commissioner. All unused, mutilated, or defaced blanks shall be returned with the book. No physician shall prescribe and no pharmacist shall fill any prescription for liquor except on blanks so provided, except in cases of emergency, in which event a record and report shall be made and kept as in other cases. Violations of law by permittee; citation; hearing; revocation of permit.—If at any time there shall be filed with the commissioner a complaint under oath setting forth facts showing, or if the commissioner has reason to believe, that any person who has a permit is not in good faith conforming to the provisions of this Act, or has violated the laws of any State relating to intoxicating liquor, the commissioner or his agent shall immediately issue an order citing such person to appear before him on a day named not more than thirty and not less than fifteen days from the date of service upon such permittee of a copy of the citation, which citation shall be accompanied by a copy of such complaint, or in the event that the proceedings be initiated by the commissioner with a statement of the facts constituting the violation charged, at which time a hearing shall be had unless continued for cause. Such hearings shall be held within the judicial district and within fifty miles of the place where the offense is alleged to have occurred, unless the parties agree on another place. If it be found that such person has been guilty of wilfully violating any such laws, as charged, or has not in good faith conformed to the provisions of this Act, such permit shall be revoked, and no permit shall be granted to such person within one year thereafter. Should the permit be revoked by the commissioner, the permittee may have a review of his decision before a court of equity in the manner provided in section 5 hereof. During the pendency of such action such permit shall be temporarily revoked. (Oct. 28, 1919, c. 85, title II, § 9, 41 Stat. 311.)

Credit shall be allowed on the tax due on any alcohol so saved to the amount of any tax paid upon distilled spirits or brandy used in the fortification of the liquor from which the same is saved.

In any suit or proceeding involving the alcoholic content of any beverage, the reasonable expense of analysis of such beverage shall be taxed as costs in the case.
